Home Support group helps county seniors

Dedicated volunteers are making life more pleasant for scores of elderly

by Len Plizze - Editor

It's been several years now since Mrs. Smith's husband died but she still lives in a small, one storey house the two of them shared for more than 40 years. Her only source of income is the old age pension, and with inflation driving up food and heating costs faster than her pension rises, she's finding it harder and harder to make ends meet. What modest savings she had have been used up to fix the roof, install a new furnace and keep the house in reasonable repair. Although her health is fairly good, Mrs. Smith's eyesight is failing and the arthritis that gnaws at her hips makes walking difficult.

Her three children have long since moved away to jobs and a better life in cities to the south. They visit her occasionally, but their own families are growing up and there is more and more to keep them busy. They've tried to talk their mother into taking a senior citizens apartment in the city, but she is stubborn. She wants to hang onto her house and possessions as long as she can.

When the weather is good, Mrs. Smith can walk to the hamlet's general store, but when the snow falls she becomes all but a recluse. Except for the neighbour who stops by occasionally to check on her welfare, Mrs. Smith sees almost no one. Her life is one of solitary independence and quiet determination, but unless she can get some help, she'll soon have no choice but to leave her home for an apartment or an old age home.

Mrs. Smith is fictitious but her story is not an unfamiliar one. Until a year ago, few people in Haliburton County knew about the Mrs. Smiths, or even cared. In a society that venerates youthfulness, in which families are drifting farther and farther apart, the old can be a forgotten generation. The neglect is not deliberate - it just happens; the sad consequence of a busy, complex and increasingly egocentric lifestyle.

Now however, thanks to the efforts of a thriving organization known as Haliburton County Home Support Services, there is light on the horizon for many of the area's Mrs. Smiths. In a matter of months, the Home Support Services has grown

from an idea in the minds of a few concerned and energetic citizens into a dynamic group of volunteers who are bringing alive programs that make life a little better for scores of the county's seniors. And Doris McCann, the group's indefatigable driving force, couldn't be happier.

Herself a senior, McCann's efforts have been tireless since the day a year and a half ago when she and other members of the social planning council, along with social workers, public health nurses and many others involved in social services, met to discuss the needs of area seniors.

The group quickly discovered that "there were very few services being provided for home bound seniors in the community," McCann recalls. Out of that first meeting several needs were identified, including meals on wheels, friendly visiting, and transportation to shopping and medical treatment.

To pin down the needs in more detail, and to identify the number of seniors who might make use of particular services, the group decided that questionnaires should be prepared and sent out. A

Cont'd. page 2

Dysart recreation program nearing as director picked

Dysart et al council and the recreation committee are negotiating details with the person both groups hope will become the community's first recreation director.

Council and the committee decided to proceed with a recreation director and programs following interviews with a number of candidates for the job Monday afternoon.

More than 30 applications were received from across the province.

Reeve Murray Fearrey said

Monday that although nine candidates were selected for interviews, only three people appeared before the joint selection committee.

While details of the director's salary and programs have yet to be worked out, Fearrey said Tuesday that "it would appear the cost of the director and programs would amount to about \$35,000 in gross expenditure." That works out to about \$3 for each property owner in the municipality, the reeve said.

Job opportunities increase as summer season nears

The employment situation in Haliburton County hasn't quite blossomed to its full potential for the summer season but the Outreach Centre is receiving more job orders daily.

Although the construction industry isn't back into full swing after a winter hiatus, Jayne Heppleston said casual labour jobs for spring clean-up are starting to filter in.

Also on the job order list are summer positions with some permanent job openings for waitresses, cooks, housekeepers and other resort staff, Heppleston said.

The centre has received many applications from service clubs and municipalities for Summer Canada grants but the approvals are not expected for another month, Heppleston said.

The Ontario Youth Employment Program (OYEP) is also slated for this season and interested employers are urged to call 1-800-268-7592 for application forms for the grants. The program runs from April 13 to October 18, with the employer receiving \$1.25 per hour based on a 40-hour week for the employee.

The program is set up on a "first come, first served" basis so interested employers should apply immediately, Heppleston said.

Other employers should be filing their job orders now if they wish to hire students for the summer months, Heppleston said.

Once again she stressed if unemployed county residents don't keep in touch with the

Cont'd. page 2

The warm spring days always seem to bring out the best in everyone, and the children playing at Victoria Street School were no exception last week. Frolicking on the gymnastics bars and running around the playground took up most of the children's lunch hour.

Mild weather helped out deer herds

The deer in Haliburton County have survived the winter well according to tests conducted on bone marrow of road-killed yearling deer.

Dave Atkinson, of the Minden district of the Ministry of Natural Resources, said Tuesday that the winter break-up in mid-February was the key to the deer's survival throughout the winter months.

"Nature is co-operating," he said.

While the ministry was busy keeping the deer yards stocked with feed for the herds, the biggest asset to the herds was the milder turn in the temperature, Atkinson said.

Along with the good winter and the antlerless deer hunting season which was implemented last fall, Atkinson said the deer will be receiving a big boost.

He said hunters will probably be seeing more does and fawns this year because they had an easy winter.

However, the good winter conditions will not cause the ministry to lift the antlerless deer restrictions, Atkinson said.

Chamber plans cuts in program

The Haliburton Highlands Chamber of Commerce expects to know by Wednesday night what programs it will have to alter or drop altogether in order to stay within a smaller than anticipated budget.

The re-examination of

Refugees adjusting well: All are forging a new life made possible by local people

by Sue Cooper

While metropolitan newspapers print stories of Vietnamese refugees facing loneliness, poor employment opportunities and difficulties immigrating into the Canadian way of life, refugees who spent their first months of freedom in the Haliburton area seem to be adjusting well, according to local committee members.

The 11 refugees who were sponsored by church groups in Haliburton Village are now living in the Golden Horseshoe area surrounding Lake Ontario.

As the last months of 1979 wore on many warm-hearted individuals across Canada offered to support refugees who were fleeing from the war-torn country of Vietnam. When the cry went out, both the United and Anglican churches said they would be willing to support the Vietnamese in the community.

The first refugees arrived on October 5 and Len Creelman, a member of the Anglican church committee, had a matter of days to arrange transportation and housing for the refugees.

Three brothers were awaiting Creelman at the airport, Trung, Tung and Kingk Trinh. When they returned to Haliburton, the boys stayed with the Creelman family for a time.

But now, because of the limitations which the area had for their education and further training, the men have moved to Rexdale, Judy Creelman said recently.

"They really like Haliburton better than the big city," she said.

However, Kingk the youngest needed the educational facilities in the city because he had no formal training in Vietnam and was older than all the local children in his grade, she said.

Kingk is now enrolled in grade nine and is learning English, drafting and other academic subjects, Creelman said. Since the school Kingk attends has a large population of immigrants they have the facilities to handle their learning problems, she said.

"He's really adjusting." In his new school setting, Kingk has found many friends and enjoys playing basketball.

While his two brothers are working to support themselves in the apartment the men share, they have not neglected their English studies.

Trung, 22, works at night in a brick factory and spends his days taking English lessons.

His brother, Tung, is on an opposite schedule, as he works through the day and attends his lessons at night.

"Everybody's working and being self-suffic-

ient," Creelman said, obviously proud of the progress the brothers have made since their arrival in Canada.

Once the trio moved to the metropolitan area they met old acquaintances from Vietnam and they have also been reunited with their older brother.

The eldest brother has been a resident in Richmond Virginia since 1975 when he was forced to flee their homestead as Saigon fell. At Christmas the eldest brother was able to come to Canada and visit his siblings and also bring good news of their parents.

The parents have now immigrated to the United States and are also living in Richmond.

"Now, they can relax about their family," Judy Creelman said.

When the brothers first came to Canada they were worried about their parents' well-being after leaving them in a small village south of Saigon.

When the men thought about their family or heard news through a "refugee news line" during their stay in Haliburton, they felt depressed. For a time there seemed to be no progress with their parents' immigration, Creelman said.

Although the men will not be able to immigrate to the USA in the near future because of restrictions on their Canadian residency they are

Cont'd. page 3

Seniors get help from dedicated volunteers

from page 1
federal New Horizons grant of \$8,700 was obtained to cover the cost of drafting, mailing and analyzing the survey. With the tax rolls for reference, the group mailed the questionnaires to every full time and part time resident of the county over the age of 55. A total of 7,500 questionnaires went out.

Tabulating the results was an arduous task, but the effort paid off. Not only did the committee pin down a number of pressing needs among the county's seniors, it also discovered that there were dozens of people with skills they were willing to offer on a volunteer basis.

Armed with this information, the committee set out to get a home support program underway. McCann, who had lived much of her life in Scarborough and had been a volunteer and subsequently director of a home support services program in that area, headed up the local effort.

At the heart of the group's work was a commitment to an idea that was being supported by the provincial and federal government; the idea that seniors could stay in their homes longer, and lead happier, more productive lives, if they could get a little bit of help. The push was to keep seniors from requiring institutional care as long as possible. The result would be a better community, and not incidentally, a smaller burden for the taxpayers.

The problems surrounding seniors are especially acute in this area. The percentage of seniors among the permanent population is double the provincial average. Lack of employment has forced many young people to move away, leaving parents without immediate families to call on for day to day help. Distances are great and transportation is a problem for many older people. And the lack of complex treatment facilities in the county means many seniors with medical problems must either travel to urban centres for treatment, or move to be closer to the help they need.

The difficulties have become more pressing in recent years, as lifestyle changes and economic pressures have tended to widen distances between families that a generation or two ago, would have been help closer together.

The situation poses problems not only for the seniors, but for people like McCann who would like to do something about it. Often the seniors are fiercely independent. Despite handicaps and limitations, they don't want to accept what they might construe as charity. They don't want to tarnish their pride. They have to be convinced that the help is not charity but concern.

To ensure that the work of the support services group is neither charity nor a burden to taxpayers, all services are provided on a user-pay basis. Charges are small, however, and are often geared to an individual's ability to contribute.

"None of the services that we provide is supposedly free," McCann says. "Regardless of how small their income is," seniors who are helped under the majority of the home support services programs "are expected to pay."

Because the organization is staffed by volunteers, however, costs are far less than they would be if paid professionals were used. For seniors on fixed incomes, the savings can be substantial.

As an example, McCann recalls that before the program got underway, a local senior who had to travel to Peterborough regularly for medical treatment was paying a driver \$55 for the round trip. The home support group found a driver who was willing to make the trip for a mere 15 cents a mile and the round trip now costs about half as much.

Meals-on-wheels well established

Already the home support organization is proving that "we can perform a service, and develop good county-wide services, at reduced costs to clients," McCann notes.

One of the first programs to be implemented by the fledgling group was meals-on-wheels. Initiated in Haliburton, it has now spread to Minden and Eagle Lake, and if the need is demonstrated, will be implemented in other county municipalities. Key to the program's success is decentralization. Instead of obtaining meals from a central facility and using volunteer drivers to deliver them around the county, McCann's group arranged to have meals prepared in the various communities where the service was to be provided. Not only were travelling times reduced, making it easier to find volunteer drivers, but the food arrived at its destination hotter.

A second major program has been dubbed "wheels to meals". Because the survey indicated that socialization is a major need for many of the county's less mobile senior citizens, a scheme was devised, in cooperation with local lodges, to bring seniors together for a dinner at least once a month. Volunteer drivers pick seniors up, transport them to the lodges, share a meal for which only a token

amount is charged, and participate in card games and other activities to round out the occasion. The program has proved a popular one, attracting scores of seniors.

A less visible but no less ambitious program of friendly visiting matches seniors who live alone with people in the various communities who are willing to spend an hour or two a week sharing conversation and other home oriented activities. To supplement this program, a phone-a-friend scheme is also getting underway. Its purpose is to ensure that medical or other problems a home-bound senior may have are not left unrecognized.

Other programs either planned or already underway include monthly workshops for volunteers, with speakers and discussion aimed at motivating people to contribute their time and skills to the group's activities, tax clinics for seniors, and a transportation service from Eagle Lake and West Guilford to Haliburton on a weekly basis. As well, the organization acts as a referral service for seniors who may have questions about such things as pension applications or admittance to Hyland Crest Home.

"As that service becomes better known, it will be more used of course," McCann says.

What the home support services group has done, in essence, is to uncover a resource which has long existed in the community, but which no one had previously had the organizational skill or the tenacity to mine.

"The people were there, willing to do things," McCann says, "but nobody knew how to go about it."

'We're professional scroungers.'

The group's success depends to a large extent on the coordinators it has been able to designate. By finding a volunteer in each community willing to discover seniors needs and assume responsibility for implementing programs in the various communities, the home support group has been able to reach out to the whole county at low cost. Each community coordinator works through Marie Wallace, group's full time coordinator.

"There is a tremendous amount of work being done by volunteers which, if we had to pay professionals, would add up to a lot of dollars," McCann points out.

Funding for the group has come from a number of sources. The Ministry of Community and Social Services is committed to a province-wide policy of helping seniors stay in their homes as long as possible, and has contributed half the local organization's \$25,000 budget. The remaining funds must be raised within the community. Dysart et al council has provided free office space which the group values at \$2000; the Bank of Montreal has donated funds; and county council has provided a grant of \$600 this year.

So far the group has managed to meet the community's needs with a small budget primarily because it has not hesitated to pressure people to donate their time and skills.

"We're professional scroungers," McCann says. "We try to get people to do things for nothing."

If the group is to continue however, it must find an ongoing source of funding within the community. And that could prove to be one of its biggest challenges.

McCann admits that the Home Support Services group has grown "very, very rapidly". That pleases her and the other people involved but it also "scars us a little bit," she says. She knows from experience that strong leadership will be the key to the group's future, but she is confident that while her determination was instrumental in getting the group off the ground, it can continue without her in the future.

"I'm happy with the kind of response, with the dedication we've gotten from all the volunteers." "The nucleus has been here, the seed has been sown," she says. The group must now direct its efforts not only to serving the needs of the community's seniors, but to educating younger generations to the problems and loneliness that can surface in old age, she believes. And it must work to combat the idea that seniors are not productive members of society.

"I think that if we could change that attitude, a lot would be accomplished," she says.

"I think we're doing a fair job of providing a good start."

"It takes a great deal of commitment and hard work."

"You have to believe in what you're doing."

The Home Support Services group, McCann says, "is just a little organization trying to fill a big need in a big place." And she believes it's working.

"I think it's making a better community, in that people are caring for each other."

Scores of county seniors no doubt would agree.

The log chute at Hawk Lake has been completely rebuilt after the township of Stanhope received grants for its restoration. The chute has been designated as

an historical site and should be on tourists and local residents lists as something to see this year.

Log chute work now completed

The historic log chute at Hawk Lake dam has been completely rebuilt and it's something that Stanhope residents can be proud of.

The project, which was carried out in two stages under government grants, was completed this winter. Only the landscaping of the adjacent picnic area needs to be improved after damage caused by the construction of the chute.

Township clerk, Gerald Bain said Monday the township is planning to landscape the area and a summer grant for students might provide the manpower for the project if it is approved.

Council is also considering placing a plaque at the chute to explain its historic importance to the area and its early loggers and settlers, Bain said.

The site of the log chute is pinpointed on a map of Stanhope's interesting sights at Buttermill Falls along Highway 35 north of Carnarvon.

Plans set for Monmouth centennial

Monmouth Township's centennial committee is busy finalizing plans for a number of celebrations that will mark the municipality's 100th year.

On May 16, the annual Kintoria Day sponsored by the South Algonquin Kinsmen Club will feature an auction, bazaar, bake sale and dance.

A special event planned for May 28 is a centennial concert at Lloyd Watson centre. Local youngsters will be featured, and work on the program is already underway.

Another special event will take place June 28 when the Essonville Church will be the scene of a centennial Thanksgiving service. Choirs from the Wilberforce United and Anglican Churches will be on hand to lend their voices to the celebration.

July 4 weekend will come alive with the annual Fiddle and Step Dance contest at the arena in Wilberforce. And the Country Good Times weekend, July 17, 18 and 19 will also carry a centennial theme this year.

The year's central event, Homecoming Week, will get underway July 26 and will continue through to August 1.

A community picnic has been planned for July 26, while July 27 has been officially designated Red Cross Day in the community,

will be on display at the Lloyd Watson centre throughout the day.

On July 28 has been dubbed senior citizens day and it too will have a heritage theme.

Donkey baseball is planned for July 29, and on July 30, the local firemen will sponsor a bingo.

On July 31 the emphasis will be on children's theatre as programs sponsored by the library system are held.

The week will wind up on August 1 with a dance at the arena.

Throughout Homecoming Week, the Lloyd Watson centre will be open all day to provide a gathering place for those who return to the community to meet with old friends.

The annual Rockhound Fair will be held August 14, 15 and 16 this year, and rockhounds from across the province are expected to be on hand to demonstrate their hobby.

A special senior citizens night is planned for September 15.

On October 10, Autumnfest will be held. It features a flea market and dance, among other activities.

November's main event is a bonspiel at the Wilberforce curling club. It is slated for the weekend of the 21st and 22nd.

On December 5, the annual wildlife dinner sponsored by the local legion will be held.

December 12 has been set aside for a dance to wind down the year's celebrations, and on December 19, groups in the community will get together to sponsor a children's Christmas party.

The year will also be marked by the opening of a special museum. Located in

the former liquor store in Wilberforce, the museum will display artifacts loaned for the year by local residents. It will be staffed by students throughout the summer, and by volunteers at other times throughout the year. It is expected to open within the next few weeks.

Details of the various events are expected to be available as the year progresses.

Chamber considers cuts

from page 1
planned programs got underway at a board meeting last week in the wake of a 10 per cent increase in the county's grant to the Chamber.

Although the increases boosted the grant to \$16,500, the Chamber had hoped to receive as much as \$25,000 from the county, and had planned ways of spending the money.

Chamber president Jim McLean said in an interview Tuesday that cutbacks will involve "not just the promotion program". A committee has also been formed to look into possible reductions in administrative costs as well.

"I don't know what that's going to add up to," McLean

noted, "except that we're going to have to live within our budget."

"I think the idea is to do as much as we can with what's available. Really it doesn't all come down to spending money. Sometimes it's just a matter of pitching in and doing the work."

McLean said the directors should have a firm idea of the extent of the cutbacks by Wednesday night, when the Chamber has scheduled a "roast" to give politicians and Chamber members an opportunity to question the organization's plans and policies.

The roast will be held at the PineStone Inn.

Employment

from page 1
office it is hard for the staff to refer them to job opportunities.

What Every Student Needs To Find A Job This Summer

It takes more than a simple desire to work and a little good luck to find a job. It takes organization, determination and a willingness to try a variety of options.

That's why the Ontario Youth Secretariat has written a special handbook called "The Edge."

"The Edge" gives a systematic and positive plan of action for finding work and then making the most of it. It also gives guidelines on how to create a job by turning personal talents into a small enterprise.

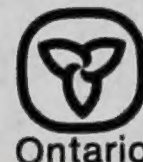

"The Edge" is an essential primer for any young person

looking for a job. That's why we're making it available free at high schools, college and university placement centres and libraries.

Or you can write to us, Ontario Youth Secretariat, Queen's Park, Toronto, Ontario, M7A 1Z1. We'll make sure you get "The Edge."

Ontario Youth Secretariat.
An agency of the Ontario Government.
Working for youth. Working for you.

Margaret Birch,
Provincial Secretary
for Social Development
William Davis, Premier

Tax time got you in a squeeze?

If tax time puts you in the squeeze, remember, last year the trained specialists at H&R Block took the pressure off for over three-quarters of a million Canadians by preparing accurate income tax returns at an average cost of about \$20. That's a good return for the money. And a lot less stress.

This year be sure.

Refugees work at new life

from page 1
applying for visas which would allow them to visit the family in Virginia.

In the first week of December, 1979, two more refugees immigrated into the Haliburton way of life, again sponsored by the Anglican church and living at the home of McKay and Patti Brydon.

Do Trieu Hong and his cousin Vuong Que Negeujet were originally from Cholon, a small village near Saigon.

Hong is now living in an apartment in Toronto and working in a furniture factory, Patti Brydon said Monday.

And working he is. Although the pay is not high by any standards, Hong is labouring about 54 hours a week so he can save money to help the rest of his family immigrate to Canada. He has six siblings and both his parents still living in Viet Nam.

"He feels he must try," Brydon said.

Sunday Brydon talked to Que by telephone, and was told that Hong is applying for a job paying almost double what he receives now.

Hong lives in an apartment with three other men he knew in Saigon, while Que has been reunited with two sisters and her father who immigrated to Toronto. Her father has his own apartment.

Que is now attending George Brown College under a manpower program to become a baker. As well as baking skills she is learning English and other academic subjects.

On Saturday she works at a bake shop in a large food store, Brydon said.

Although the refugees moved to the city, Brydon says she feels their time in the small town of Haliburton was very beneficial for the pair. "I really feel they learned Canadian customs and way of life," Brydon said.

Some everyday duties like banking and shopping and the operation of OHIP were quickly picked up by the refugees while they lived with the Haliburton family.

"It was an excellent opportunity for them," she said.

But the Brydon family was also lucky she said. "They were lovely, warm people and I think we were very fortunate."

'A success story'

The Kim family's arrival in Haliburton followed quickly on the heels of Que and Hong's induction into the community.

Van Tu and his wife Tthi Xin and their four children Chinh, Chi, Mui and Ly were sponsored by the Haliburton United Church.

Committee member, Dorothy Way said the Kim's are settling into the city life very well.

Van Tu Kim is working in a tavern and his wife is at home in Toronto.

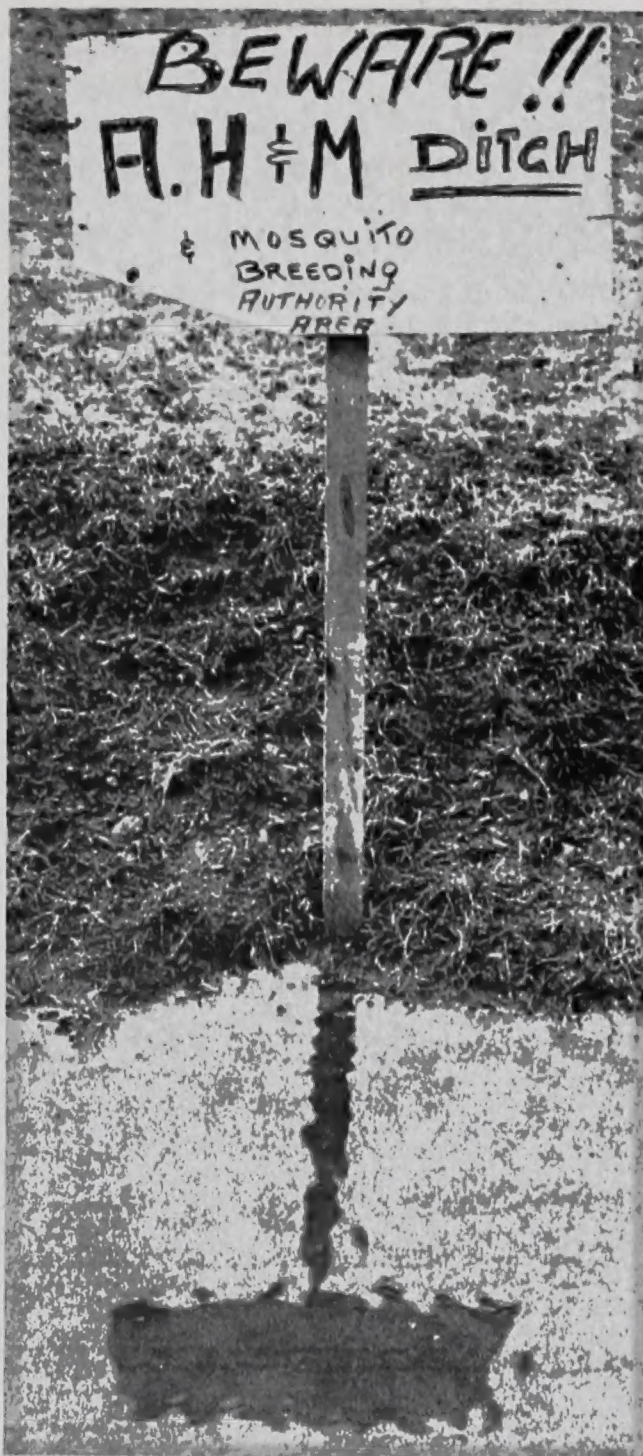

All the children are living together in an apartment in Hamilton. Chinh, Mui and Ly all have secured jobs in factories while Chi is attending school.

Chi has suffered extreme adjustment problems in his new life in Canada. When the committee contacted a local Haliburton doctor, he was able to refer Chi to a Vietnamese doctor who could help with the young man's problems. Chi lived in a horrifying bomb-riddled Vietnam for seven years during his late childhood and adolescent years and it seems this might have caused most of his problems, Way said.

After receiving treatment at the Guelph hospital for patients with mental problems, Chi is now "feeling good", Way said.

With most of the refugees working or attending school or both, it seems a few months of close contact with the Canadian way of life have opened the door to a better future.

As Brydon says: "I'd say it's a success story."

Residents along North Water Street in Minden are still not satisfied that the township council has done its best to rectify the drainage problems at the front of their properties. Al Coneybeare, one of the four home owners, is trying to look at the funny side of the problem with this sign on his front yard. Earlier last year the residents asked council to divert the water under the road to the river. With no action from the council the water lays in the ditch until it evaporates or sinks into the ground.

Snowdon council meeting

At the March meeting of Snowdon Township council the following matters were considered:

Pat Vanini, a planner from the Central Ontario Office, Ministry of Housing, discussed at length with council the possibility of the municipality appointing a Committee of Adjustments and also dealt with planning matters in general.

Road Voucher #2 for the month of February in the amount of \$4,256.42 was approved for payment.

General accounts in the amount of \$2,668.33 and general welfare assistance in the amount of \$1,264.45 for the month of February were approved.

By-law 7/81, a by-law to appoint officials and establish rates of remuneration and expenses for 1981 was given three readings and passed.

A special meeting of council was held on March 18 to deal with unfinished business from the March 11 meeting. All members in attendance.

The clerk was directed to

write to the Minister of Transportation and Communications, with a copy to John Eakins, M.P.P., advising him of the opposition of council to the proposed transfer to the Provisional County of Haliburton of that section of Secondary Highway 519, south from Haliburton to the junction of Highway 121.

The preliminary budget for municipal purposes for 1981 was reviewed and several adjustments agreed upon.

Snowdon will pay the \$25 per capita charge in respect of children from this municipality participating in the figure skating and minor hockey programmes in Minden. Carried on a division vote: Voting Yea: J. Francis, B. Neville, F. Simmons, D. Wruth. Voting nay: R. Vick.

Land Severance Application #H24/81 was approved.

Council supported the resolution of the Regional Municipality of Hamilton-Wentworth regarding harsher penalties for persons carrying firearms whilst participating in a criminal act.

Man injured in Haliburton crash

A Haliburton man suffered a minor injury last Wednesday in a two-vehicle accident on Highland Street in Haliburton Village.

Larry Medley, 35, of L17, C9, Dysart, was driving a 1975 Datsun pickup which collided with a 1978 GMC pickup driven by Nancy Wood, 18, of Highland Street Haliburton.

Police say the accident occurred when Wood backed out of a parking lot onto the roadway. She was charged with failing to yield.

Damage to Medley's truck was estimated at \$1500, while damage to Wood's vehicle was estimated at \$900.

A single car accident on Highway 648 in Cardiff Township, Sunday afternoon, resulted in an estimated \$1800 damage.

Fred J. Berning, 25, of L35, C17, Wilberforce, was driving a 1978 Dodge which left the roadway and rolled over in a ditch.

Berning was charged with careless driving.

Sherborne gets planning grant

A community planning study grant of \$5,850 has been allocated to Sherborne, McClintock and Livingstone townships.

The grant is designed to assist municipalities and planning boards in preparing official plans and zoning bylaws or in bringing them up to an acceptable level.

The funds can also be used in preparing zoning bylaws to replace minister's zoning orders, to finance planning programs for unorganized territories or for other relevant planning studies.

The grants are allocated as part of the Ministry of Housing objective of helping municipalities and planning boards prepare sound planning programs.

A WARNING ABOUT THE TRUDEAU CONSTITUTION TO ALL CANADIANS

DID YOU KNOW THAT BILL DAVIS IS SELLING OUT YOUR HARD WON BRITISH "INNOCENT UNTIL PROVEN GUILTY" FREEDOM FOR A FRENCH "GUILTY UNTIL PROVEN INNOCENT" APPROACH TO BASIC CONSTITUTIONAL LAW?

Bob McDonald, Toronto Sun columnist, points out that under our traditional Canadian system dating back to the British Magna Carta, Canadians have all rights not specifically denied them by law.

Under the French system of a written constitution, the public have **ONLY** the rights specifically **GRANTED** them by the constitution.

Additionally, all laws passed by Parliament and provincial legislatures will be subject to challenge in the courts on the grounds of not conforming to the written constitution. Five of nine Supreme Court judges appointed by the prime minister will be able to throw out any legislation passed by your elected representatives - **without any appeal.**

Do you really want to be ruled by five appointees of the prime minister? The British brand of freedom was won with the blood of those willing to die that their children might be free. Are we prepared to let these hard won freedoms slip through our fingers without a whimper?

TO ALL PROPERTY OWNERS

RIGHT TO OWN PROPERTY UNPROTECTED BY DAVIS BACKED TRUDEAU CONSTITUTION

Are you ready to risk the security of your property with a Pro-Davis, Pro-Trudeau vote on March 19th?

The Toronto Sun said January 28th:

"On the surface, it seems astonishing that the federal Liberals, who regard power as their divine right, would oppose an amendment to the constitution affirming the right of citizens to own property.

"Yet that is precisely what the Trudeau government won't endorse..."

"The proposed Tory amendment is hardly radical: 'Everybody has the right to life, liberty, security of the person and the enjoyment of property and the right not to be deprived thereof except in accordance with the principles of natural justice.

"Who in a democracy can argue with that?"

"The NDP can -- our home-grown socialist party wants the 'right' to nationalize private property if it so desires. The Trudeau government agrees.

"...The Trudeau government is not prepared to constitutionally guarantee citizens the right to life, liberty, security and their own property. It is monstrous if we, the Canadian people, docilely accept this.

"If only we had a bit of the spirit of Poland, or a Lech Walesa in Tory ranks, we'd be on the barricades. But it seems we don't much care."

DO YOU CARE?

Trudeau needs to know Canadians want property rights protected.

ADVERTISEMENT

**TO ALL WOMEN!
ARE YOU AWARE THAT YOUR NATURAL RIGHTS
ARE ON THE VERGE OF BEING REMOVED?**

Premier Bill Davis is supporting Trudeau's proposed charter of rights which threatens to destroy the God-given rights of women.

Section 15(1) of the proposed charter states: "Everyone has the right to equality before the law and to the equal protection of the law without discrimination, and in particular without discrimination because of race, national or ethnic origin, color, religion, age or sex."

What is not stated is that this so-called "equality of rights" opens the door for:

- the outlawing of sexually segregated educational institutions, sports activities, college dormitories, penitentiaries and even washroom facilities, which has already occurred in the United States;
- the forcing of women into combat roles despite the physical inequities;
- the exploitation of women under the guise of equality: women stand to lose their preferential treatment under the law in such areas as auto insurance, maternity leave, life insurance, and the right to support, to name only a few;
- loss of protection of women of childbearing age in hazardous occupations; and
- loss of preferential treatment for women in jobs requiring night shifts in dangerous situations.

Women Aware stand opposed to the entrenchment in the constitution of something that nature has not ordained. Women do not have to become duplicates of males in order to have equal worth.

The rights in the charter only give women the right to lose their special position under the law.

Are we prepared to sacrifice all of the special benefits historically given us by law in order to gain equal employment and salary opportunities which are already legally ours in any case?

**TO ALL CHRISTIANS!
GOD HAS BEEN BANNED FROM OUR CHARTER OF RIGHTS**

Affirming that the Canadian nation is founded upon principles that acknowledge the supremacy of God, the dignity and worth of the human person and the position of the family in a society of free individuals and free institutions...

Affirming also that individuals and institutions remain free only when freedom is founded upon respect for moral and spiritual values and the rule of law...

A quote from the Charter of Rights in Prime Minister Trudeau's constitutional package? No.

It's the key amendment with which the official Opposition tried, in the committee stage, to tie the Trudeau charter to Canada's historical, philosophical and ethical roots.

Few Canadians who take a good look at that amendment would, I suppose, hesitate to endorse it.

To the astonishment of those who in the past three months followed the televised proceedings of the special Senate-Commons committee on the constitution, the Liberal majority rejected that amendment.

- **Labor J. Zink, in the Toronto Sun**

The majority of Canadians of all faiths want God mentioned in our basic constitutional documents. Many Christians believe it is an affront to God to delete His name, yet smiling Bill Davis, the Christian family man, publicly repeats his support of the Trudeau constitutional package which deliberately rejects the statement that our nation is founded on principles that acknowledge the supremacy of God, the worth of the human person, the position of the family and respect for moral and spiritual values.

An obligation

The Haliburton County Board of Education will have done the county's taxpayers, students and secondary school teachers a disservice if it chooses a new principal for the high school without looking beyond the county system.

When the present principal, Brian Mosgrove, decided to step down from his administrative duties and return to classroom teaching, the board had to decide whether or not to advertise outside the county to find someone to fill the job. Following a brief discussion at which only two trustees expressed their points of view openly, (both in favour of looking internally to fill the job), the board voted that the position would be advertised only within the county. While that move did not preclude applications from other parts of the province, it made it highly unlikely that qualified individuals from outside the county would apply.

The board apparently reasoned that it should provide qualified people already on staff with an opportunity to move ahead. And the idea is not without merit. In a small system, opportunities for advancement are limited, and local teachers deserve a fair chance at any job openings. But do they deserve preferential treatment in the form of reduced competition, especially when they are free to compete for teaching and administrative positions anywhere else in the province?

The board has an obligation to treat its teachers fairly, but it also has an obligation to fill important positions with the best possible people. The principalship of the high school is an influential position and the person who fills it in no small measure shapes the kind of school over which he or she presides. To ensure that it finds the right person for the job, the board should have advertised the position across the province. That would not have closed the door to any qualified person now teaching in the county. But it would have given the board the opportunity to pick the best person from among what would no doubt have been a large number of candidates.

And not incidentally, it would have given the person the board selects the satisfaction of knowing that he or she had won the job in the fairest possible way.

A vital role

The Haliburton County Home Support Services group may not be among the most visible organizations in the county, but it is certainly among the most important. For more than a year the group, consisting almost entirely of volunteers, has been working to implement and carry out programs designed to help local seniors stay in their homes. The job has required countless hours of work, and a large measure of organizational skill, but as the success of programs such as meals on wheels, seniors tax clinics and wheels to meals amply demonstrates, the effort has paid off.

Many of the county's citizens, and most, if not all of its politicians, are aware that the percentage of senior citizens living in the Highlands is double the provincial average. And as lifespans increase due to medical advances, and people continue to retire to the Highlands problems faced by seniors in the community seem likely to grow more pressing. But thanks to the Home Support Services organization, and the scores of volunteers whose time and skills make it work, the future looks a little brighter. Through its programs, the home support group is helping seniors stay in their homes longer. It is making it possible for them to enjoy life more by bringing them together, and demonstrating that the value of caring and sharing has not been lost. Less important but still worth noting, it may also be helping to keep taxes down by reducing the need for specialized senior citizens facilities.

The Home Support Services organization is fulfilling a vital role. It deserves the admiration and the support, both moral and financial, of local citizens.

Well done

Local citizens will no doubt be pleased to learn that the Vietnamese refugees who were sponsored by local church groups in Haliburton County are well on their way to forging a new life. After a year in which they were supported by the generosity of local citizens, the refugees are now living and working in cities to the south. They have become self-sufficient members of society, and it seems likely that they will continue to do well.

Few projects undertaken in the county have been as important as the sponsorship of the refugees. Few have carried as many risks. And few, it would seem, have turned out better.

It is an accomplishment of which all who played a part in the sponsorship effort can be proud.

LETTERS to the EDITOR

To the Editor:

Concerning the past series on abortion, infanticide and euthanasia:

Since being made aware of the facts through advertisements similar to those placed in your paper by Don Waterhouse and by the flyers that were distributed throughout the county, I have been awakened to my own ignorance and apathy towards the killing of half a million preborn Canadians. I have also been made aware of the ramifications that the acceptance of abortion has in regards to the dignity of human life and to our freedoms and human rights which we claim to hold so dear. The "Whatever happened to the human race" series really brought these points home.

J. Pothaar,
Harcourt, Ontario

To the Editor:

I'd like to express my concerns regarding the sex education films presented to parents last March 31. The films, which pretend to be neutral, not making any moral judgements, in actuality, present the message loud and clear that premarital sex is fine as long as you don't get pregnant or contract V.D.

As a parent with three very young children I present the problem from my personal point of view. As my children grow up, I will teach them about sex very naturally as they enquire and in context with the definite values which are taught in the bible. When they go out to school they will be confronted not only with peer pressure but also the educative system whose morals are totally conflicting with my own.

Doris Pothaar,
Harcourt, Ontario

Report from Parliament

by Bill Scott, MP

Two federal government programs announced by my office in recent months have attracted considerable public interest, particularly among home-owners and small business people, but both programs have been bogged down in legislative and administrative delays.

The two programs are the Canadian Oil Substitution Program, also known as "off-oil", and the Small Business Development Bond program (SBDB).

While both programs have now been approved (SBDB received Royal Assent on February 26, 1981), the Small Business Development Bond program has not been widely enough advertised, and the off-oil program continues to be wracked by confusion.

Initially, the oil conversion program was to be an arrangement between the federal government and the provinces. Public utilities in each province would distribute literature and application forms.

Starting date for mailing out grant cheques was to have been April 1, 1981, but this date has been changed to "about the first week in May."

Last Friday the federal department of Energy, Mines and Resources announced another turnaround in the program. The provinces will not be involved in administering the program. According to the announcement, "the entire program will be administered by Ottawa."

Two different reasons, from different sources, have been advanced by way of explanation for the change. One is that the federal government has had some difficulty in finalizing arrangements with some of the provinces.

The other reason given is that, if the provinces distribute literature and application forms, some

people might feel that the provincial governments are also paying the grants, and Ottawa wants to make sure that it receives all the credit.

The oil conversion program, unless further changes are made, will provide for grants to homeowners, tenants, businesses and public institutions who convert from oil to another (renewable energy) fuel for heating. The grant will cover half the cost of conversion, up to a maximum of \$800.00.

The Small Business Development Bond program was given Royal Assent on February 26, 1981, and is now law. There is some confusion though as to what the monies raised on these bonds can be used for.

Basically, SBDB loans can be used for purchase of property "that is specified property of the corporation", and for "qualified expenditures." The bill creating SBDB does not give enough in the way of explanation as to what those terms mean, and a full explanation should be published by the government to assist both bankers and clients in understanding the program.

The SBDB bill also states that such monies can be used to purchase vehicles, but only where such vehicles will be used to carry passengers for hire. Another interesting feature is that SBDB monies can be used for firms that are in receivership to pay off creditors where an arrangement exists that has been approved by a court under the Bankruptcy Act.

Loans can be obtained under the SBDB program in amounts ranging from \$10,000 to \$500,000, and the repayment period is not less than one year nor more than five years. No special application form is required. A normal loan arrangement is made.

Feir Play

by
Creighton Feir

The second annual Community Fun Night was held at the arena in Haliburton last Friday night and from all reports it was another great success. I was unable to be present myself but I was really excited on Friday afternoon when I heard many of the local citizens making plans to attend. This is one evening that young and old alike can go to the arena together for two hours of good clean fun and exercise. It seems to me that we need to have more of these events in the community. What a grand sight it was to see the ice surface filled up with skaters. This is a scene which I would like to see more often. Our congratulations to the organizers and all those who took part. The real winner was the Haliburton Minor Hockey Association who received the proceeds for the evening.

While viewing some of the ACTRA Awards which were presented on TV last Friday evening I couldn't help but to think back on the past when I noticed Laurier LaPierre handing out one of the awards. How can you forget this man when you think back when he along with his side-kick Patrick Watson teamed up for that ever popular TV programme, "This Hour Has Seven Days". In my opinion it was one of the best public information programmes ever to be aired.

Chaplain Derek Craig of Toronto will be the guest speaker when the Full Gospel Businessmen's Fellowship in Canada hold their monthly dinner meeting at the Royal Canadian Legion Hall in Haliburton next Friday evening, April 17 at 7:00 p.m. Rev. Derek Craig, 36, for a year has been Canada's first Director of International Prison Ministry. The IPM basic outreach is to provide spiritual help via radio broadcasts, free Bibles and literature, and other services to all prisoners who are incarcerated in institutions in the United States, Canada, Mexico, and other parts of the English-speaking world. Derek is no stranger to a cell block as he spent eight and a half years in Millhaven Federal Pen for armed robbery and forgery. His testimony is "From crime to Christ".

The Brotherhood of Anglican Churchmen will be moving their monthly corporate Communion breakfast and meeting to St. Paul's Anglican Church in Minden this coming Sunday, April 12 at 8:00 a.m. The speaker on this occasion will be Rev. George Elliott the new rector of St. Paul's. The men of the B.A.C. at Haliburton will be meeting with the men from St. Paul's at this joint meeting.

Just recently we have heard some people complaining about the deplorable condition of the sign in front of the Bell Canada office on Haliburton's main street that has been placed there for the purpose of advertising the Haliburton Winter Carnival. There is no doubt about it the sign is in bad need of paint and repair.

Have you received your Easter Seals in the mail yet? Over 3,200,000 sheets of seals have been mailed by the Easter Seal Society to residents of the province. When you receive your seals be sure and show you care by sending a contribution. Over 6,700 physically handicapped youngsters and their families need your help in order that the Easter Seal Society and its member service clubs can continue to provide a camping and nursing program, medical research and assistance to provide artificial limbs, braces and wheelchairs. The 1981 Easter Seal Campaign runs until Easter Sunday with a provincial campaign objective of \$3,000,000. The Rotary Club of Haliburton has set its objective of \$1,800, the Rotary Club of Minden are hoping to raise a total of \$1,300.

Representatives of the Haliburton, Kawartha and Pine Ridge District Health Council will be holding a public meeting at 7:30 p.m. on Wednesday, April 22, 1981, at the PineStone Inn and Country Club, Haliburton, Ontario, to review and discuss the District Health Council's involvement in the future arrangements for the Red Cross Hospitals in Minden and Haliburton. Members of the general public are invited to attend and comment.

The Rotary Club of Minden held their annual skate-a-thon recently at the Minden Community Centre and raised over \$700. We were certainly pleased to see that once again the Minden skate-a-thon was a great financial success. This is a great way to raise money and it's not only the Rotary Club that wins, many other organizations in Minden and area also benefit.

There's a youth meeting at the 4 C's Centre on Haliburton's main street on Tuesday, April 14, at 7:30 p.m. Any adults interested in the youth program are invited to attend. It would certainly be nice to see a good turnout at this all-important meeting. We must all remember that the youth of today will be our adult citizens of tomorrow.

Once again this year the Easter Sunrise Service will be held at Skyline Park on Sunday, April 19. Time will be announced later.

Mr. Bailey of the 10th concession off the Buckhorn Road reports that the tree swallows and blue herons who nest annually in the marsh behind his home have returned for the summer.

In closing my column this week I would like to remind you that there are few, if any, jobs in which ability alone is sufficient. Needed also are loyalty, sincerity, enthusiasm and cooperation.

Joan Nicholson of 216 Cochrane St. in Whitby, Ontario was the lucky winner in the draw for a side of beef held at the Community Fun Night in Haliburton on Friday evening. The lucky ticket number was 126 and the draw was sponsored by the Haliburton Midget Hockey Club.

Pic of the Past

To help celebrate Monmouth's Centennial year we are running from time to time photos submitted to us by the Monmouth Centennial Committee showing what life was like in Wilberforce and area in years gone by. Here is another one. This photo which was taken before the first great war shows the Wilberforce Theatre Players at the Bancroft station on the occasion of the presentation of a play (approx. 1913). This theatre group consisting of all Wilberforce people presented plays around the area to raise money for local projects. From

the left - back row (ignoring the figures in the background), Herb Card, Herb Schofield, Miss Addison, Mr. W. A. Riley, (boy in picture known as Willie Riley), Mrs. Addison, Belle Graham (later Mrs. Shea), Bertha Clark (later Mrs. Richardson, then Mrs. Minns, then Mrs. Syd White). From the left in the front row, Reg Hamblin, Mr. Smith, Reverend Percival Knight - Anglican Minister, ----- Railway Supervisor, Mr. Frank Schofield, Mr. Frank Askey.

Bill Smiley

An old folk saying has it that there are only two things in life of which we can be certain: death and taxes.

For Canadians, I think we could add one more item: the periodic request from Bell Canada for an increase in rates. There's another one in the works right now, and unless the CRTC shows some gumption, and the Canadian public screams in outrage, it will quietly slip through, another stone in the pyramid of inflation.

I won't go into the nitty-gritty of the increases. They are complex and vary from one area to the other. But I'll give you a rough idea, supplied from Bell Canada itself. The increase is requested for September 1, 1981. Here's an idea of what it will cost you. Your ordinary residence rate would go up by 30 per cent. Your primary business rate would go up by 40 per cent. Certain business auxiliary services would go up anywhere from 20 to 100 per cent.

Service charges to install a telephone would increase by \$8.50 residential and \$25.00 for businesses. The old reliable pay phone, which not too long ago jumped from a dime to twenty cents, would go up to a nice round quarter. Long distance calls, which Ma Bell urges us to make often, in a series of treacherous television advertisements, will soar substantially.

Now I'll be the first to admit that Bell Canada is one of the best services in the

world. Ever try making a long-distance call in France, Germany, England?

And I'll be the second to admit (after the company itself), that the rates are reasonable, compared to those of many other countries.

This is a tribute to the company's expertise in keeping up with advancing technology. It has done an excellent job of this.

And I'll be the third to admit (after the company and its employees) that inflation is driving up its costs for wages and materials, as it is doing to every other industry in the world.

But, And I have some but's. The service is not as good as it once was. Dialling Operator nowadays is not receiving personal, friendly advice in making a difficult call. It is more like speaking to a rather cross computer who makes you feel stupid. Long gone is the feeling that the phone company is part of the community. Customers are now dealt with at arms length, and rather brusquely, like retarded children.

To be honest, some services have improved. I can call my daughter, 800 miles away, by dialling a few numbers, and have her on the blower in thirty seconds. That's as it should be, with new equipment.

But the Bell has become tight and cheese-paring, in many other aspects. Operator assistance now costs you. It's even a dime more to ask for

local directory service. In other words, it will cost me an extra ten cents to find out whether J.M. Smith is Jack Smith or Jeffrey Smith.

It will cost me a quarter to phone a cab, instead of a dime. And if they're too busy to come, it might cost me a dollar for four calls, instead of forty cents a couple of years ago.

Bell Canada is honest enough, and smart enough, to explain why it needs the increases, aside from inflation. It wants to raise the return on its shares from 12 per cent, established in 1974, to 14.50 or 15 per cent, to encourage investments. How many of us were making 12 per cent in 1974 on our investments, and ever since?

Finally, it comes down to a matter of principle, and dignity. On principle, I have been fighting Bell's perennial requests for an increase for about thirty years, and have seen all too many of them ooze through with barely a murmur from the customers.

And I think, in a trying time for all of this country, that the corporation might have enough dignity to tighten its belt and like the rest of us, while still giving its shareholders a fair return, and

keeping its standards up.

Alberta is willing to sell its oil well below world prices, to keep along the same lines, without losing its integrity for borrowing money, for attracting investors.

"The unfavourable economic conditions in the company's servicing area" is another reason for demanding new revenues. How in the holy old heck is a fat increase going to aid these economic conditions? In a far-flung country like this, the telephone has probably become more important, economically and emotionally, than the postal service.

Not much of an argument, mine, but I have a feeling the increase is wrong. If you feel the same, badger your federal M.P. into badgering the CRTC into a refusal.

Improved technology should reduce prices, not increase them. But Ma Bell and her shareholders couldn't care less, apparently.

"Let's end this column on a happier note. Some weeks ago, I wrote about an old song that went: 'You can bring Kate, with the partial plate, But don't bring Lula,' and so on, for verse after verse. I couldn't remember what was wrong with Lula.

Dave Lister of McDonald's Corners, Ontario, and Mary Tilden of Nepean, Ontario, have filled me in.

Mary writes: "Words I am sure you are longing to hear,"

"You can bring Pearl, she's a darn nice girl, but don't etc."

She adds, "Sorry I only know the last line: 'Hulla-baloola, don't bring Lula, I'll bring her myself.'"

Dave corroborates this with, "There was nothing wrong with Lula. The last line of the song said, 'I'll bring her myself.'"

Certainly glad that's cleared up.

OPP report

Minden OPP report another quiet week with 42 general occurrences investigated, which included six thefts, two break and enters, two impaired drivers and two liquor offences. There were four reportable motor vehicle accidents and one non-reportable accident. There was one minor related injury.

FOR RENT

Available June 1st, 1981 the store premises formerly occupied by Coburn's Drugs and presently occupied by Paul Heffer on the main street, Minden, Ontario. Heat and hydro supplied.

From the Chamber

Oh, it's so good to be back. After 10 days at the Toronto Sportsmen Show plus a day to set up and an extra day to attend part of the Resorts Ontario convention, the Haliburton Highlands are great to come home to. A note of appreciation here to Don Blakey who transported our display to the show and helped set it up, and Godfrey Saunders who loaned us his truck to bring it home.

New Brochure a Hit

The response to our new area brochure and the summer accommodation guide has been excellent. Visitors to our booth at the Sportsmen Show were enthusiastic about the brochure and were particularly pleased to be provided with a guide which listed 52 local accommodation facilities along with their rates and details on their features. When they realized what a handy guide this was many said they did not intend to pick up any more brochures since this covered everything they need to know. A number of our members have already reported acquiring bookings from this material and when fully distributed it is bound to have a considerable impact.

Working the Toronto Sportsmen Show is an annual opportunity to take a bit of a reading on the attitudes and impressions of the potential tourist traffic for the coming year. This year we have a very optimistic feeling about the approaching season. More and more people are seeking good holiday facilities within a reasonable distance from metro. We also talked to a great number of U.S. visitors who had come up from border cities specifically for the show in order to plan their vacations. We also talked there with representatives of other areas who had done some American shows and they tell us that interest from that sector is extremely high. The trend over the last several years is continuing to strengthen also, that cost is of secondary importance to the quality and cleanliness of their selected facilities.

Interest in cottages and building lots and acreages was also intense, while many cottagers who now have their properties discussed extensive renovation and winterizing plans they were considering.

All in all, while most of the country talks of restraint and declines in the economy, tourism is alive and well and flourishing. How fortunate we are that much of our economy relies on the one portion of the economy that is going against the grain.

Cut-Back Promotional Budget

The Directors of the Chamber wrestled with the changes required in the budget at a marathon meeting of the board last week which lasted until almost 1:00 a.m. The original budget had contained a very ambitious marketing program which required extensive financial assistance from the county, and none of these funds will now be available. In fact administration must even be cut somehow by as much as \$6,500. Many decisions remain to be made and perhaps some ideas may be forthcoming at the "Chamber-Roast" on how we might accomplish some of the ideas the board feels are very necessary.

One of the decisions made by the board was that since the budget to prepare and distribute news releases had to be dropped that part of this program could be surveyed by replacing this column every other week with news releases sent to newspapers and other media outside our own

area. This column will therefore not appear in future on a regular weekly basis, but copies of the news releases will be provided to the local papers and they may or may not wish to publish them.

It is indeed unfortunate to be cutting back on area promotion at so critical a time in the development of tourism in the province, but it takes money to do all that should be done. More money than we have available to us. Tonight, Wednesday, April 8, the Chamber is hosting a "Roast" at the PineStone Inn. If you have any idea how we can do it better we'd sure appreciate your attendance.

Coming Next Week

The Federal Business Development Bank is, in cooperation with the Chamber, running a one-day "Bookkeeping Seminar" at the PineStone Inn on Wednesday, April 15, from 8:30 to 4:30. Cost is \$35 including lunch and materials. If you have no previous experience in record keeping, or even just a little, we are sure you will find the seminar most productive. It is also an excellent refresher course for those who have had several years of business experience. To register please call Kathy McNeil in Peterborough at 1-748-3241.

On Thursday, April 16, at 7:00 p.m. at the PineStone Inn the H.C.S.A. and the Chamber will be meeting to search for ways and means to fund their trail programs. The trails in the county are very important to our winter business and funds for their care and development are shrinking. If you are in any way interested in seeing their considerable efforts continue we urge you to attend this important meeting.

Monmouth Cup highlights end of hockey

Monmouth hockey teams fared well in the annual Monmouth Cup hockey tournament held last Saturday in Wilberforce, winning two of the four games that made up the tourney.

In the Novice division, which opened the tournament, Haliburton just edged out the Wilberforce squad by a 1 - 0 margin.

The Atom game was a one-sided affair, as Minden rolled to an 11 - 0 victory over the Wilberforce team.

In the Pee Wee match, the Wilberforce squad dominated play in a game against Bancroft, winning 5 - 1. And in the final game of this year's tournament, the powerful Wilberforce Bantams outplayed Haliburton from the

Atoms compete in Fenelon Falls Teams play with skill

On Saturday, April 4, the Tri-County Atom hockey team travelled to their first away home tournament this year being held at Fenelon Falls.

In their first game they came up against an aggressive Beaverton team. Haliburton went ahead in the first period by an unassisted goal from Jeff Emmerson. Beaverton scored in the second period to tie the game. Charlie Frankland scored for Haliburton in the third, assisted by Kelly Youngdale. With the assistance of good goal tending from Ed Brohm, Haliburton defeated Beaverton 2 - 1.

In the second game Haliburton came up against Fenelon Falls, a team that has

given them trouble all year. It was a hard-played game and again Ed Brohm provided strong goal tending. There was no score at the end of the first period. In the second, Haliburton got on the scoreboard twice with Charlie Frankland being assisted by Randy Bird and Steven Prime, unassisted. Fenelon

HHSES competes in tourney, wins girls consolation title

The Haliburton junior girls floor hockey team that came second in the Ontario Regionals held in Agincourt two weeks ago added to their list of accomplishments the consolation championship trophy from the International Floor Hockey Tournament held in Battle Creek, Michigan. This tournament brings together the two top teams from the regional tournaments held in Agincourt, Fremont, Indiana; Lansing, Michigan; Minneapolis, Minnesota; and Battle Creek, Michigan. These regionals represent 30 cities and approximately 120 teams.

The team left Haliburton Thursday morning at nine

and arrived in Battle Creek to meet their billets that evening at 8:00 p.m.

In their first game on Friday, the girls met the Urbandale Penguins from Battle Creek. At the end of the second period the score was 5 - 2 in favour of Urbandale. The Haliburton team never gave up and came back to tie the game with one second left on the clock at 5 - 5. However, in the overtime period it was Urbandale scoring to win the game 6 - 5.

Haliburton advanced into the consolation bracket Saturday morning against a team from Minneapolis, Minnesota. This game proved to be a little easier with Haliburton

coming out as victors with a 4 - 2 decision.

The consolation championship game held at 5:00 p.m. Saturday matched Haliburton against a strong team from Lansing, Michigan. Lansing moved into an early 4 - 0 lead but Haliburton never gave up and came back in the last minutes of the game to tie the score at 5 - 5. Again Haliburton

Cont'd. page 10

The girls floor hockey team from Haliburton Highlands Senior Elementary School won the consolation title at an international competition in Michigan on the weekend. Pictured, left to right, are, back row - Roy Scott, Wanita Harrison, Lisa Williams, Michelle Parish, Lisa Sisson, Melissa Creelman, Debbie Barry. Front row - Susanne Long, Shannon Curry, Lyndel Morrison, Shauna Pearson. Absent, Linda Pockett, Judy Finlay, Jody McKnight.

Hunting licences revised, for summer game season

The "Resident's Licence to Hunt from March 1 to August 31" has been discontinued. Sometimes referred to as the "Groundhog Licence", this licence was required to hunt certain small game species in the Southern Region of Ontario during the spring and summer months. The "Resident's Summer Small Game

Tag" has replaced the discontinued licence.

A 1980/81 "Licence to Hunt Small Game" which expired March 31, 1981 can be validated to cover the period April 1 to August 31, 1981 by affixing a "Resident's Summer Small Game Tag" to the licence. This

Understanding babies is important

by Catherine Clark
and Catherine Miller
Infant Development
Consultants

Babies are helpless, noisy little creatures that spend most of their time sleeping and the rest of it making more work in their diapers for mom and dad. This is the initial impression most people have of the newborn infant. We don't think of babies as having any form of intelligence at such a fragile and incompetent age. In an introductory psychology text in 1890 William James said that babies perceive the world as a "blooming, buzzing confusion". Early psychoanalytic theory portrayed the infant's behaviour as being dominated by biological drives such as hunger, sleep and pain, only evolving into a thinking, learning person through experience. Modern researchers have confirmed that experience and the concept of readiness do indeed play an important role in the

evolution of thinking and learning. However, we can also appreciate the fact that babies are intelligent little people collecting tremendous amounts of information about their world even before they are born. Babies (called neonates in their first few months) can cry a lot, since that is their only way to communicate, and sure there are a lot of messy diapers but after a couple of months the baby has already learned to communicate both discomfort and contentment.

The neonate's senses are more developed than you may think. Research has shown that at two days after birth babies can distinguish between light and darkness and recognize different patterns - he knows if he is wearing his checkered sleepers or his yellow t-shirt, though he probably hasn't much preference. By 10 days the neonate can control his eyes well enough to follow a moving object such as mobile over his

crib. His focus is best at 7 1/4 inches from his face for a few months during which time his vision will often be blurred. He is probably able to see in colour from birth although this area has not been well researched.

If you have ever dropped a pan around a new baby you will agree that his hearing is well developed. He can also "turn off" noise if he has something more important to do, such as sleeping. Try making a noise to one side of

your baby's head. Depending on his age he will turn his eyes, then later his head, in the direction of the sound to look for the source.

Taste is probably the neonate's most advanced sense. Neonates have been shown to be capable of discriminating between sweet and sour tastes. They enjoy being touched and cuddled from the moment they are born. They react to being hot or cold and feelings of pain, though probably as a general sense of

discomfort at first rather than the way we think of these feelings.

From the time they meet the outside world, then, babies are impressively well equipped to begin learning. The neonate's senses of smell and taste, hearing, vision and touch are established despite his apparent helplessness and fragility. The idea that he experiences a mere "blooming, buzzing confusion" is simply inaccurate in view of

Obituary

Reverend Noel McNeill

-Submitted-

Funeral services were held for Rev. Noel John Thomas McNeill on Monday, March 30, 1981, at Poplar Hill Christian Church, London, conducted by Pastor Glenn

Rosch and assisted by Rev. D. Breen, Moderator of the Apostolic Church of Pentecost, and Rev. Bob Tauber, Rev. B. H. Cross, Rev. Winston Cross, and Rev. M. Brisco.

Noel was born in London, England, December 18, 1939. His family immigrated to Canada in 1947 and resided in the Toronto district, attending schools in both Ajax and Pickering. In 1958 he went west to Eston, Saskatchewan, to attend the Full Gospel Bible Institute, from which he graduated in 1961. While at Eston Noel married Deena Stephanie, and the newlyweds travelled to Haliburton, Ontario, where Noel became

the Pastor of the Full Gospel Lighthouse. His first project there was to build a new church building which was dedicated at Thanksgiving 1962.

Since Noel's craving for books could not be satisfied by the existing library, he proceeded to establish a County Library System. By going to the provincial government, he discovered funds would be made available to counties if they were establishing county systems. Noel and others went to all the municipal councils in Haliburton County and received approval for establishing a county system. He became

Lori-Ann O'Brien, of Ingoldsby had her first short mystery story in the March 20 edition of Scholastic Scope. As a student at Archie Stouffer Public School in Minden, she has access to the magazine which is used as reading material. The magazine is an international publication printed by Scholastic Inc.

Extencicare News

by Dr. W.O. Anderson

Monday morning after breakfast we had games and exercises designed to help build body and mind like the old P.T. of army days. Here we are content to throw a ball about, or roll a hard ball on the floor to hit various targets. It is an item repeated three or four times a week to help to promote a community spirit among we residents. It is routine in any nursing home.

In the afternoon some of the girls, Flossie Burk, Sylvia Gilbert, Nine Hussey, Hazel Parish and Ada Denholm were quilting and doing a good job of it. Their plans are to make several. Today's volunteer helpers were Amelia Sibley and Lillian Hague supervising and Cheryl Athoe kept things moving.

The boys at the same time were wood working - Ray Smith, John Sissons and Allan Macklin making plaques to hang on cottages as identification. Charlie Stormer directed and Cheryl Athoe kept them busy. All this time seeming to produce flowers was in progress.

June Devolin came unaccompanied to conduct bible study, a continuance of the Easter story and for this session, the Garden of Gethsemane. That was that time betwixt his ministry and his

crucifixion in which Jesus felt entirely deserted, when even the trusty disciples left him alone so they could sleep; but he was in direct communication with his heavenly father, a great comfort.

Later the ladies, Maude Weston, Flossie Burk, Christina McCrae, Alice Hartle and Allan Macklin undertook to bake some cookies, possibly so we could have some next Friday for the snack after devotion. Anyway something turned up that required a consultant - Darlene Darby, but by then it was too late. The cookies were not exactly tops but they will do. Pat Burk is away and Cheryl Athoe was supervising.

In the afternoon came our favourite bingo, with volunteer helpers Betty Wise and Bernice Ross on hand and Ray Smith relieved by Allan Macklin were the chief performers. There was an excellent turnout and when the game was through everyone was happy.

Canada is remarkably fortunate in her labour or manpower force in the keenness of the average worker no matter in what role to excel in his job. Starting say with this newspaper that is so often taken for granted, do you not sometimes wonder at the

Senior League

by Linda English

The week's activities started on Monday morning with fun and fitness. The residents enjoyed an hour of exercising and playing games to music. In the afternoon the ladies gathered in the craft room to work on their many different projects. They are making quilts, afghans, and cushions just to mention a few of the lovely items.

The movies were shown in the auditorium on Monday evening. Williamsburg was an exceptionally good film which showed us the beauty of Williamsburg. The place has been restored to its natural state in the eighteenth century. We saw how barrels are made by the Coopers and exquisite material being made by hand.

In the Centre of Italy was also a very interesting film which introduced us to the folk lore of Italy. We saw beautiful cathedrals which have been kept in their natural state since the 1600's. We also saw pottery in the making, and it was interesting to note that no two articles are ever the same. These films were both very interesting and were enjoyed by all

those who went to the movies. Tuesday morning, Rev. John Smith of Haliburton held an inspiring service in the chapel. Agnes Taylor played the organ for us and Barbara Trocweiz led in the singing. Special thanks to Barbara who is responsible for getting us some large print hymn books. These books are easy to read and have a lot of the old favourite hymns in them.

The bingo lovers gathered in the main lounge for a game later in the afternoon. It was a particularly lucky day for Jessie Walter.

Ray Jenkins was here for music night and as usual the residents turned out in full form to listen to some of his toe-tapping piano music. Thank you, Ray, for an enjoyable evening.

Wednesday evening the games assistants from our auxiliary were here to play euchre, crockinole, checkers and cribbage with our residents. Everyone had a good time.

Thursday afternoon the ladies of Allsaw Pentecostal

Church brought a delicious variety of sandwiches, muffins and cookies for the tea party. After the tea was served the ladies got together

Ontario's Tax Grants for Senior Citizens. 1981 installments have been mailed.

Last year Ontario replaced its system of tax credits for seniors with a new program of Property and Sales Tax Grants. The Property Tax Grant of up to \$500 is provided in two installments annually. The Sales Tax Grant is an automatic \$50 paid each year to Ontario residents 65 and over.

Property Tax Grants

◇ **Eligibility.** If you're 65 or over and own or rent your home you're eligible for the Property Tax Grant of up to \$500.

If you reside in a nursing home, a home for the aged or similar institution, you're not eligible for the Property Tax Grant unless you pay for the

full cost of your care and the institution pays municipal and school taxes.

◇ **No Application Needed.** If you qualified for the Property Tax Grant last year you'll automatically receive the April installment. This cheque, to a maximum of \$250 will be half of last year's Grant. Your installment cheque was mailed April 6th. This is intended to assist you in paying your property tax or rent for the first part of 1981. In the fall you'll automatically receive an application for the balance of your Grant.

◇ **If you turned 65 after December 31, 1980** (and therefore did not qualify for a Grant last year) you won't receive the April installment. However, in the fall you'll receive an application for the entire 1981 Grant.

Sales Tax Grants

An annual \$50 Grant is paid automatically to every senior citizen. You will receive your 1981 Sales Tax Grant this fall.

Special Note

If you do not receive the federal Old Age Security Pension and you're 65 or over, please contact our Information Centre toll-free for details on how to receive your Grants.

Coboconk News

by Shiela Lake

Mr. Jack Peel underwent surgery in Toronto General Hospital on April 3. He would be happy to be remembered with a cheery card, I'm sure. He is in intensive care but came through the surgery in good condition. Get well soon, Jack.

Susanne Barbour was honoured at a bridal shower recently. Susanne will marry Brian Swain on April 11.

Mr. Clarence McKay has been ill in hospital as has Mr. Ralph Angiers. These two fellows could be home by the time this is in print as they have been in hospital for some time.

We enjoyed a trip to Scarborough, accompanied by Mrs. Cora Lake, last Sunday, and visited daughter and hubby, Heather and Clinton Hirstwood, and Don Lake and daughter, Joanne. It was a beautiful day, and beautiful for travelling. Hubby and Ted Garelli and Don Young of Head Lake attended the gigantic horse sale at Listowel on Wednesday.

Mrs. Jane Bradmore, Chrissy and Dennis Switzer of Little Britain were Sunday visitors of Mrs. Ruth Rutter and Garnet. Dick and Ruby Pearce of Rosedale also visited.

The Ken Bowins are off to

Myrtle Beach, South Carolina for a vacation.

Here is a recipe for a good supper dish. Hungarian Stuffed Cabbage - 1 cabbage, cored; 1 lb. hamburger; ½ lb. ground sausage; 1 medium onion, chopped; ½ cup rice, uncooked; 1 (6 oz.) can tomato paste; 1 tsp. sugar; salt and pepper to taste. Separate cabbage leaves. Place in boiling water and boil uncovered 5 minutes. Drain. Save the liquid. Combine meat, onion, rice, salt and pepper in a bowl. Shape into golf-ball size meatballs. Roll each meatball up in its own cabbage leaf. Combine the tomato paste, 2 cups of cabbage liquid and sugar. Place over layered rolls in a large pan. Add water if needed, to cover cabbage. Cover. Simmer for 1½ hours.

Flower bulbs that lay dormant all winter are now sprouting through the earth. This come alive season is a good time to think "horticulture". Talk to Harold Alton if you would like to become a member.

Rev. Noel McNeill passed away at London, Ontario last week. Well-known in these parts, he was a high school teacher at Haliburton some years ago, and preached at the Gospel Lighthouse. He had suffered with a brain tumor for many months. Just last Thanksgiving he took part in services held at Faith Tabernacle here. He will be greatly missed by so many.

Frank Real Estate have moved into the old former Bank of Commerce building, beside Souter's Variety store.

Cory Reynolds enjoyed hanging around in the beautiful sunshine last week. Cory attends school in Haliburton Village at Victoria Street School.

Kinmount Korner

by Millie Moss

What local lady recently had the cellar hatch door fall on her head? Two or three stitches were required to close the cut in the top of her aching head. Some days it just doesn't pay to get up!

Robert and Johanna Card, Christine and twins, Tanya and Louise Bailey, all of Jackson's Point, were recent guests of Mary L. and John Pyke in Norland.

Jason, Bill and I drove up to Haliburton last Saturday and it was the most pleasant of days for a ride. The car set out on the lake ice hadn't gone down at that time and I had mentioned I thought it might sink, in a further three days which would have made it March 31. I wonder how close or far I was?

Our daughter, Bonnie, left here for Toronto last Sunday where she will be working for a couple of months before going back to the St. Petersburg area of Florida.

The Joan and Ken Hyams were busy folks last week with guests from Toronto, Stan and Eleanor Jones and getting ready for further guests this coming week. They love it!

Wilma Cooper of Coboconk was the winner of the Norland Firefighters hockey pool, Saturday, March 28.

If you'd like to have a new puppy, now is the time to speak up. Shelagh is now the

proud mother of seven and they are cute. We stopped by to see them last Thursday. Give a call to 454-1380 if you are interested.

Little Alyce Patricia arrived in this world on March 11 at Uxbridge. Happy mom and dad are Bram and Wendy Collingwood and grandparents on cloud 9 are Fred and Irene Collingwood of Uxbridge and Marion and Jack Sweetland of Kinmount. Congratulations to all of you.

Happy birthday on April 4 to Shirley Newman. On April 3, Mrs. Norm (Audrey) Silvers, Karen McBride and Vi McNevin dropped by unexpectedly complete with birthday cake and a pleasant time was enjoyed by all.

I hope to hear you are feeling better soon, Nora Crego.

I hope to hear Betty Scott is back home from hospital very soon.

Welcome home from down south to Mr. and Mrs. Hamilton.

The following is another recipe from my "Art of Cooking in Harbour Grace". Blueberry Orange Bread: 2 cups flour, ½ tsp. baking soda, ½ tsp. salt, 2 tsp. baking powder, ¾ cup sugar, 1 egg, beaten, ¾ cup of milk, ½ cup of orange juice, 1 cup blueberries, 1 tbsp. grated orange rind, ¼ cup melted butter, ½ cup chopped nuts.

Sift flour, baking soda, salt, baking powder and sugar. Combine egg, milk, orange juice, orange rind and melted butter and stir into flour mixture. Beat well. Spread on a third of batter in greased 9 X 4 inch pan. Sprinkle with half of the blueberries and nuts. Add another third of batter, then remaining berries and nuts, add remaining batter. Bake at 350 degrees

for 50 minutes. The preceding recipe was originally sent in by a lady named M. Ludlow.

On Wednesday, April 22 at 8 p.m. there will be an old time hymn sing along to be held at the Kinmount United Church. Notes have been mailed out to the various churches and everyone is most cordially welcome. The organist will be Mrs. Olga

Elias who will be here from her home in Toronto. Mr. and Mrs. Elias have built a new home on 503 highway just west of town and some day soon, we hope, will be retiring there.

I hope to hear Rev. Crawford is home from hospital and well again.

Take care and have a nice day.

Wilberforce News

by Winnie Schofield

With deep regret we learned of the passing of Noel McNeil who will be remembered by many as a person gifted with great enthusiasm for work and possessing a very pleasing personality. We first knew of him in Wilberforce when he organized a youth program. Once a week after school he met with the young people at the Monmouth arena.

In 1965 he was instrumental in forming the Haliburton County Library system and he worked diligently to set up branches in Minden, Dysart, Snowdon, Dorset, Monmouth, Bicroft, Glamorgan and Sherborne. Some time later he served as teacher at

the Haliburton High School and assumed duties as minister of the Pentecostal church. He sought to attain a degree as a librarian and continued on in this capacity in London, Ontario.

He pursued each objective with a powerful drive and he achieved great results. The accomplishments of Noel McNeil will long be remembered in Haliburton County.

On Friday, April 10 at 7 p.m. there will be a craft workshop at the library for all youngsters who enjoy creating and working with a group. The important project for this evening will be Easter eggs. Donna Herbert will be on hand to instruct.

The Centennial Committee met at the community hall in Tory Hill and various programs scheduled for this year were discussed. A group has been formed to contact former residents with an invitation to visit Monmouth during Homecoming Week. Anyone having the address of such people could contact Edith Watson of Wilberforce, Elsie Noble of Essonville, or Marjorie Madill of Gooderham. We have always been proud of our village with its neat houses, well kept lawns and bright flowers. This year we would like to encourage everyone to make a special

by Wyatt Legge

On March 17 Stan Packard made a cake for St. Patrick's day. Wyatt decorated the cake and everyone enjoyed it.

On March 19 we were invited to Haliburton Forest and Wildlife Reserve for the day. When we arrived Reg and Shirley greeted us and showed us around. After they showed us around we had a hot chocolate and got ready for our snowmobile rides. Russell Sisson and Guenter Wedmann guided us through the trails for about an hour. Dorothy Shanz and her helper prepared a home cooked meal for us which we really enjoyed.

Wilberforce News

from page 8
effort toward beautifying our area and presenting an attractive picture to visitors. Plant a few extra flowers and your neighbours will do the same.

Many people are giving their time and effort towards making this a successful year. One of these is Harold Herlihy who has copied and developed dozens of pictures for the Monmouth Museum at a very low cost. He has had to make trips to Peterborough for material and has spent many hours producing photos to be used as a display of our past history.

There has been no charge for his labour. Harold also produced the pictures for the Centennial book and he wrote an article for the book concerning the Wilberforce Lumber Co. He is a good citizen who is doing his bit for our Centennial year.

The Mineral and Gem Club held their monthly meeting on Wednesday night. Harry Ablett had drawn up a good program with maps showing rock formations in the area and with many books of instruction in the hobby of rock collecting. Everyone was pleased to welcome back Lynn Binskin. The club will present samples of rocks and minerals at the upcoming Maple Syrup Festival. Now that winter is past there is a renewed interest in this hobby. The club meets in the library basement on the first Wednesday of each month. New members will be welcomed.

There is a lot of activity at Parks Cottages these days as the new owners are getting things in good order before their opening in May. Percy and Aey Allin have moved here from Cavan and will be providing comfortable cot-

tages for tourists. They are in a beautiful section on the shores of Dark Lake and are to be found across the highway from the Legion Hall. We welcome them to the area and wish them every success in their new venture.

The local Wilberforce and area Red Cross Branch is looking for volunteers who will make articles for a sale this summer. The proceeds will be sent to the Ontario Red Cross for use in countries where there is a disaster. Mr. K. Cameron (convenor) has wool on hand to knit men's winter socks and for baby jackets and bonnets. Other wool will be purchased if required. We are especially interested in having more novelties to sell. The cost of all materials will be paid by the Red Cross. Please let

Mrs. Cameron know if you can help. Phone 448-2824.

This has been a revitalized year for Wilberforce minor hockey. The season ended with the Monmouth Cup games played on Saturday. The results were: Novice division - Haliburton 1, Wilberforce 0; Atoms lost to Minden 11 - 0 (just wait until next season, Minden); for the Pee Wees it was Wilberforce 5, Bancroft 1; the "Unbeatable" Bantams trounced Haliburton 7 - 2.

All teams have done very well through the season and much credit is due the coaches. A successful skate-a-thon took place Sunday with proceeds to Minor Hockey Club. The executive members of the club would like to thank the public for their support through the season.

The object of the exercise was to cram seven teachers into a Volkswagen and then have three other people push it from one end of the ice to the other. The race, Friday night, pitted the high school teachers against

their counterparts from the senior elementary school. The high school teachers won but their victory was not altogether within the rules.

ARC News

After lunch we went back on the trails until about 2:30 p.m. We all had a really good time.

Karen Keller is enjoying her new job at Extensicare and at 2:00 p.m. she comes back to the workshop and helps us make coffee.

David Irwin will be spending time with us during the March break. We are glad to have him for a visit.

On March 25 we went to Camp Wanakita. Steve took us all ice fishing but we had no luck. Some of us played broomball while others watched. Steve and Wyatt barbecued hot dogs for lunch over a big huge fire. It was so good eating out of doors. After lunch we went on a nature hike to a beaver pond. There were two large beaver

dams and we saw a fresh birch tree just cut down three or four hours before we got there. We learned that beavers eat the leaves and his favourite are white birch and poplar. On our nature walk we saw a huge maple tree and it was so hot out that the sap was just pouring down the trunk. We went to the obstacle course to climb on the ropes and we all had fun.

Murray McColl, David Irwin, Wyatt Legge and Barry Stromberg went to the People First conference in Toronto at the Holiday Inn last Friday and Saturday. About 600 people attended. We went to a wine and cheese party and a dance and had workshops about changing the name "Mentally Retarded Adults" because we feel we are ordinary human beings.

On Tuesday we had a birthday party for Carol, Bob and Robert. We had a huge cake and a great time.

Also this week we received an order for a dozen hockey sticks and a dozen maple leaves for a Haliburton hockey team who are going to a tournament in New York.

Red Cross meets annually

Ken Morley chaired the annual meeting of the Haliburton Red Cross branch held in the board room at the hospital last Tuesday. Guests at the meeting were Mrs. Wilkinson, president of the Hospital Auxiliary, and Mr. and Mrs. Jim Burton. Helen Burton is responsible for public relations for the Minden Red Cross Branch and Jim Burton is chairman for Zone 4 Regional Council of Ontario Red Cross.

The 1980 annual campaign Cont'd. page 12

Carnarvon News

Mr. and Mrs. Ben Corliss have returned to their home after spending the winter in Florida.

We were sorry to hear of the death of Mr. Leo Campagnolo and extend our sympathies to the family. Mr. Campagnolo lived in what

was the former Carnarvon school.

Mr. and Mrs. Ross Misener of Wahnapitae spent a week with the Max McKays and with Mr. Hugh McEachern of the Hyland Crest.

Mr. and Mrs. Don Archer and children are spending a

holiday in Florida with Chris's parents, Mr. and Mrs. Wes Clark.

Mrs. Irene Minaker has returned to her home after wintering with her family in Toronto.

Mr. and Mrs. Cliff Archer Cont'd. page 10

Chatting with Irene

by Irene Moore

Isn't it lovely to wake up in the morning to the singing of the birds. It does seem funny though to see the blue jays, crows, robins and smaller birds all feeding at the food box. I had thought that the Jays would leave once the others got back but my friends the jays still visit each day.

After the weather last Sunday, the sunshine on Monday, but then a little bit of sunshine is magical, indeed, it fills the world with colour, it wakes the sleeping seed. A little bit of sunshine from any kindly face; can make this dreary planet a very happy place.

The winners at the LOBA card party held at the home of Mr. and Mrs. Morgan Trumbull were lone hands - Alice Morrison, Freida Harrison, Pearl Cowen, Earl Hewitt and Harry MacMinn.

Bill and Lenore Prentice enjoyed their holiday in Florida and are sporting lovely tans.

Wintario 2nd Chance Draw winners last week were Russ King at Stedmans and Roy Sawyers at Mae's Country Mart.

Mr. and Mrs. Lloyd Brownbridge of Scarborough spent the weekend at their cottage.

Spring's busting out all over; with its fashions, gardening, sports, and so are lots of gals who try to wear their last year's shorts!

I had a chat with Les and Effie Hie Sunday and having just come back from Florida they found the day rather chilly.

There will be no mini card party next Thursday, April 16 but there is one this week and after that on April 23. Winners last week for cribbage were - Dick Cummings and Luther Wilson. Euchre winners were - lone hands - Shirley Elcome, Della Griffin and Harry MacMinn.

If you are having ham for Easter and will have some left over, this "Ham and Rice Casserole" is very tasty. 1 large chopped onion; 2 cups chopped cooked ham; 2 tbsp. margarine; 1/4 cup uncooked rice; 1 cup canned green beans; 1/2 cup canned kernel corn; 1 small can tomatoes; 1 tsp. sugar. Brown onion in margarine. Stir all ingredients together. Bake in covered casserole for one hour in 325 degree oven. (serves 4 to 6).

Mr. and Mrs. Goldie Henderson of Roseneath celebrated their 25th wedding anniversary last weekend. Cont'd. page 10

Farm News and Views

from page 8

A variety of 4-H projects will be offered this year. Regular projects include beef, dairy, sheep, swine, field crops, garden and veterinary science. New projects are farm machinery and heritage. Members in the Victoria 4-H Heritage Club will be studying the history of agriculture in Victoria County.

4-H Clubs are offered in a number of communities in the county. There are 4-H calf clubs in Bockageon, Fenelon, Omeme, Lindsay, Little Britain and Woodville. The rest of the 4-H Clubs are offered on a county basis.

One of the highlights of the 4-H Roundup was the best breed competition. 4-H members are divided into breed groups. Each group was required to answer questions related to 4-H and agriculture. The breed group with the most correct answers was declared the winner.

The individual 4-H Clubs will be organizing during the month of April. Meeting dates and locations will be included with the Agricultural Office's list of coming events.

4-H is open to anyone 12 - 19 years of age as of January 1, 1981.

Ontario Bull Sale

The 1981 Ontario Beef Bull Sale was held last week at Markham. A number of cattlemen from Victoria County were among the large crowd of people on hand to watch 100 quality beef bulls being sold.

Twelve out of the 100 bulls were purchased by Victoria County farmers.

The top price paid in the sale was \$3200. This was the price received for both the champion Hereford bull and for the champion Charolais bull.

The six Charolais bulls averaged \$2133; the six Simmental averaged \$2000, the 71 Herefords averaged \$1470, the three Shorthorns averaged \$1266 and the 12 Angus bulls averaged \$1012.50.

Almost every bull in this year's sale was a good type

animal. And most bulls were in the kind of condition that a commercial cow-calf producer wants -- in other words, ready to go to work producing calves right away.

Some of the purebred beef breeders who consigned bulls to the sale, must have been discouraged with the low prices they received, especially for big two year old bulls. Some of these bulls were sold for only a few dollars more

than they would have received if they had been shipped for slaughter.

It was certainly a buyer's market. On the other hand, there was a noticeable lack of ROP information on these bulls. Only 30 out of the 100 bulls had been performance tested. And a few of the bulls which had been tested, were below their breed average in their results.

NOTICE

Under The Forest Fires Prevention Act

The period from April 1 to October 31 of each year is a fire season.

During the fire season, fire permits are required in a fire region.

- for all outdoor fires except fires for cooking or obtaining warmth.
- to ignite fireworks in or within 300 metres of a forest or woodland.

A work permit is required to conduct any operation which is liable to cause an accumulation of slash or debris within 300 metres of a forest or woodland.

No person shall throw or drop live coals, smoking material or hot ashes in or within 300 metres of a forest or woodland.

No person shall smoke while walking or working in a forest or woodland during the fire season.

The regulations under the Act provide, in part, that every person who starts a fire out of doors shall, • take all reasonable steps to keep the fire under control. • ensure that a responsible person tends the fire, and • extinguish the fire before quitting the site.

Fire permits may be obtained from local Ministry offices or township fire wardens.

Extendicare News

from page 7
amazing ability and excellence that is expressed in each issue repeated weekly. News printing has come a long way in every aspect of getting the words and pictures into type and have the facilities of turning out thousands in a

relatively short time. So it is with every trade or profession and even the casual labourer has skills very few considered a few years ago. The trades are now portioned into specialties as are the professions that are able to produce excellence to everyone's satisfaction. They are paid more but earn more. Every person producing excellence has a right to full pay. Everyone wishes it could continue thus but time eventually shows that society cannot afford to pay the average worker for his excellence and it irks. As one professor of medicine put it not so long ago, "The elderly are costing the taxpayers too much for our (physician and surgeons) services".

We are not sure when the advent of the crocus occurred this year; a week ago there was no sign but on Thursday there were fully 20 full blooms just as saucy and perky as you please as though informing all who see them

that they simply came out of the winter's snow. Last year a bloom appeared at every planting site, ie six feet out from every resident's window so it will be of interest to see if they do the same this year. It is a mystery to us how these bulbs, existing in frozen soil all winter can, before the frost leaves, become active enough to produce a flower which is a prelude to reproduction and needing pollinate but seemingly at a time when no insects are about to do this. A closer study of these flowers may give us the answer. We are removing the rose collars that we placed around the bushes in the fall and filled to a depth of a foot with loose leaves being one method of preventing frost kill. We will soon learn if it works.

We have been told to

remind everybody of the end-of dance to be held at West Guilford Hall, Saturday

evening, 8:30 p.m. to 1 a.m. to raise money for the 'Van fund'. It is to be the 'Dew

Berry Wine Dance Orchestra' and only costs \$5.00 per couple.

Summer game licences change this year

from page 6
validation authorizes the licence holder to hunt in the southern region during the open season without that April to August period. There is a five dollar fee for the 'Resident's Summer Small Game Tag'.

A hunter not possessing a 1980/81 'Licence to Hunt Small Game', must obtain one prior to purchasing a 'Resident's Summer Small Game Tag'. A 'Resident's Summer Small Game Tag' may be issued to residents of Ontario only.

Another change in the licence regulations for 1981,

was the moving of the southern region boundary to a more northerly position. The enlarged southern region includes that part of Ontario south of the grey line shown on the 'Small Game Seasons' map of the 1980/81

'Summary of Hunting Regulations'. The entire counties of Victoria, Peterborough, Northumberland, Haliburton, Hastings, Simcoe and the Regional Municipality of Durham are included in the new southern region.

Carnarvon News

from page 9
and children of London, Ontario, spent the weekend with his parents, Mr. and Mrs. Stan Archer.

Mr. and Mrs. Joe Voicoy motored to Florida with some of their family for a short vacation and Alice had the misfortune to fall and break

her arm, and after returning home had to have an eye operation, an unhappy way to end a well deserved vacation.

Mr. and Mrs. Max McKay are leaving for England on Tuesday morning for a visit to England with Anne's parents.

Dorset News

by Phyllis Briscoe

"The pessimist grumbles because God put thorns on rose bushes, the optimist thanks God for putting roses on thorny bushes."

The ice is really disintegrating quickly with a large area of open water in the lake. Wouldn't it be nice if it went out by Easter? We saw a canoe out on the water which

is unusual for the first week in April. A loon has been spotted on the open water and a number of ducks swimming around. The land birds are back in full force, also. There have been groups of redpolls at my back door and robins are appearing everywhere. The daffodils and tulips are leafing out so it won't be too

long before we have some colorful blooms. What a beautifully early spring is promised. The water level is extremely low and many people whose water line goes into the lake are having troubles with the foot valve being out of water.

Our neighbour, Mark Barry, is home again for some relaxation after spending a number of months in Australia and Tasmania. Mark is employed by the Digham Co. who do explorations for minerals in various parts of the world.

School break week was a busy time in the area. Many people with summer homes were here to enjoy the nice weather and local residents had their children and grandchildren visiting them from other areas. All in all, it was a week of activity and good times.

We would like to welcome home Mrs. Grace Munro, who is once again installed in her home on Rabbits Bay after spending the winter in Toronto and the Bahamas.

H.H. Sophia Loren's recipe for bright and sparkling eyes. Before retiring, bathe them with cold weak tea.

Atoms play in Fenelon

from page 6
Falls scored early in the third, but Haliburton scored less than one minute later, an unassisted goal by Charlie Frankland. Fenelon Falls

Floor hockey

from page 6
ton was into an overtime situation but this time Haliburton came through as Michelle Parish scored the winning goal.

Besides winning the consolation championship the girls also made many new friends and returned home with many happy memories of their trip.

Coach Roy Scott expressed thanks to Mr. and Mrs. John Curry, Mr. and Mrs. Bill McKay and Mrs. Wanda Scott for their help as drivers and support as fans. He also added a special 'thank you' to Mr. and Mrs. Gary McKnight for giving the team the use of their van. "It is this support and help that makes these tournaments possible," the coach noted.

The Urbandale team, who hosted the Haliburton team for the tournament, went on to the championship game, Saturday night.

scored one more time to make the final score 3 - 2 for Haliburton, moving them into the championship final against Peterborough.

In the championship game, although the local squad gave their all, they were no match for the big, strong skating Peterborough team and were defeated 9 - 0.

The Tri-County Atom team can be proud of the season they had this year, having shown good team play all year, and working hard to improve themselves individually.

"I would like to thank their parents for the excellent support to their efforts," said coach Walton Prime.

MUNICIPALITY OF DYSART ET AL

NOTICE

IN THE MATTER OF THE MUNICIPAL ACT AND IN THE MATTER OF A PROPOSED BY-LAW OF THE MUNICIPALITY OF DYSART ET AL TO STOP UP, CLOSE AND CONVEY A PORTION OF PART OF THE ORIGINAL 66 FOOT ROAD ALLOWANCE BETWEEN CONCESSIONS IX AND X, ACROSS LOT 28, AND CONCESSIONS IX AND X, ACROSS LOTS 27 AND 29, TOWNSHIP OF DYSART, IN THE PROVISIONAL COUNTY OF HALIBURTON.

NOTICE IS HEREBY GIVEN, pursuant to Chap. 284, Sec. 443 of the Municipal Act as amended, that the Township Council of the Municipality of Dysart et al proposes to consider and if deemed advisable to pass at its regular meeting to be held at the Council Chambers, Haliburton, Ontario on Monday, May 11, 1981, a By-law to Close, Stop up and Convey the following:

ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being in the Township of Dysart, in the Provisional County of Haliburton, being composed of the original allowance for road between Concessions IX and X, across Lot 28, and part of the original allowance for road between Concessions IX and X, across Lots 27 and 29, in the said township, and which said parcel or tract of land is more particularly described as follows:

PREMISING that the bearings herein are astronomic and derived from the centre line of the said original allowance for road between Concessions IX and X, having an assumed bearing of North 68 degrees 53 minutes 40 seconds East as shown on Plan 19R-2328.

COMMENCING at the North Westerly angle of the said Lot 28, Concession IX; **THENCE** Westerly along the Northerly limit of Lot 27, Concession IX, on a course of South 68 degrees 53 minutes 40 seconds West, 412.67 feet to a point in the Northerly limit of the travelled township road;

THENCE North 79 degrees 52 minutes West, 65.29 feet to an iron bar; **THENCE** North 70 degrees 23 minutes 40 seconds West, 49.28 feet to a point in the Southerly limit of the said Lot 27, Concession X;

THENCE Easterly along the aforesaid Southerly limit, on a course of North 68 degrees 53 minutes 40 seconds East, 505.15 feet to the South Easterly angle thereof;

THENCE continuing Easterly along the Southerly limit of the said Lot 28, Concession X, on a course of North 68 degrees 53 minutes 40 seconds East, 1320.8 feet to the South Easterly angle thereof;

THENCE continuing Easterly along the Southerly limit of the said Lot 29, Concession X, on a course of North 68 degrees 53 minutes 40 seconds East, 751.18 feet to a point in the Northerly limit of the travelled township road;

THENCE South 43 degrees 33 minutes 20 seconds West, 154.22 feet to an iron bar in the Northerly limit of the said Lot 29, Concession IX;

THENCE Westerly along the aforesaid Northerly limit on a course of South 68 degrees 53 minutes 40 seconds West, 611.1 feet to the North Westerly angle thereof;

THENCE continuing Westerly along the Northerly limit of the said Lot 28, Concession IX, on a course of South 68 degrees 53 minutes 40 seconds West, 1320.8 feet to the Point of Commencement.

WHICH SAID parcel or tract of land may be further illustrated, shown in heavy outline on a plan by Paul Wilson, O.L.S., dated March 25, 1981, and available for inspection at the Municipality of Dysart et al Office, Haliburton, Ontario.

AND TAKE FURTHER NOTICE that before passing the said By-law and its meeting to be held at the time and place above mentioned the Township Council of the Municipality of Dysart et al shall then and there hear in person or by his Counsel, Solicitor or Agent, any person who claims that his land will be affected by the said By-law and who applies to be heard.

DATED AT HALIBURTON, ONTARIO this 6th day of April, 1981.

NOTICES

Notice to merchants and creditors. To Whom It May Concern: James M. MacBrien will not be responsible for any debts that are incurred by Sandra L. MacBrien. Creditors will be notified personally that collection by lawsuit only will follow if there is evidence she is charging items that I may be held legally responsible for. 25-P-8

THANK YOU

We, the family of the late Bill Wilson, would like to express our deep appreciation to friends and relatives for floral tributes, donations, sympathy cards, food and visits at the time of the loss of a dear husband and father. Sincerely thanks to Mr. Gordon Monk, Rev. Trevor Denny, Iris Miller, Dr. Robert Hayes and pallbearers for their kind assistance. Your thoughtfulness and kindness has made our loss easier to bear. Dorothy Wilson and family 27-B-8

I wish to thank friends and relatives for their acts of kindness, get well wishes and prayers during my stay in hospital. A special thank you to Dr. Hartwick and doctors and nursing staff at Civic Hospital. Frank McLeod 27-P-8

I would like to thank the Stanhope Fire Department for their fast and efficient service on March 24, 1981 in saving my place, with minimum damage to the inside only. Keep up the good work, I wish I was a part of you. Many thanks again, Gratefully yours, Lee Ebert 27-B-8

I wish to thank friends and relatives for their acts of kindness, get well wishes and prayers during my stay in hospital. A special thank you to Dr. Hartwick and doctors and nursing staff at Civic Hospital. Frank McLeod 27-P-8

I would like to thank all my many friends and relatives for their flowers, cards, phone calls, visits, general kindnesses and prayers while I spent eight weeks in the Ross Memorial Hospital in Lindsay and St. Michael's in Toronto. A special thanks to the doctors and nurses and staff of both hospitals. Your continued prayers and general support gave me real comfort as I wait for my upcoming surgery. Thanks again, Alice Barnum 27-P-8

THANK YOU

I would like to take this opportunity to thank my friends, neighbours and relatives for the many lovely cards and floral tributes and visits to me while I was a patient at St. Joseph's Hospital, at Peterborough. Many thanks to Dr. Hartwick, and Dr. Belch, and nursing staff, the kind and gentle care I received while in intensive care and thank you all. Alma Jane Mawbey 27-P-8

IN MEMORIAM

BLAIR, Violet - In loving memory of a dear wife and mother, who passed away April 10, 1980. God saw you getting weary, So He did what He thought best; He came and stood beside you, And whispered "Come and Rest". You wished no one a last farewell, Nor even said goodbye; Please God forgive a silent tear, A fervent wish that she was here. Too dearly loved to be forgotten, husband Bert and son Bryce. 32-P-8

Lovingly remembered by sister, Mary McPhail. 32-P-8

NOTICE TO CREDITORS

NOTICE TO CREDITORS AND OTHERS

All claims against the Estate of **WILLIAM OSWALD HUNTER**, late of Gooderham, Ontario, Provisional County of Haliburton, who died on or about November 27, 1980, must be filed with the undersigned personal representative on or before April 10th, 1981, thereafter, the undersigned will distribute the assets of the said estate having regard only to the claims then filed. DATED March 20th, 1981, **Marjorie Hunter**, Executrix by her solicitors: Logan, Glass, Farn, Reynolds & Sillberg, 6 Albert Street North, Lindsay, Ontario, K9V 4R8. 33-B-8

DAVIES, Wm. [Bill] - In loving memory of a dear brother and uncle who passed away suddenly April 12, 1978. At night when all is silent And sleep forsakes my eyes, My thoughts wander to a lonely grave Where my dear brother lies, And when my tears are falling They seem to hear him say, Don't cry Sis, I'm only sleeping We'll meet again some day. Sadly missed and always remembered by sister, Barbara, Roy and 3 nieces and 4 nephews. 32-P-8

DAVIES - In loving memory of a dear son and brother, William Davies, who passed away suddenly April 12, 1978. Just when his days seemed brightest, Just when his hope seemed best God called him from amongst us, To His eternal rest. Sadly missed but God knew best. Lovingly remembered and missed by mother and brothers, Ron and Richard. 32-P-8

In loving memory of our dear husband and father, Clayton McKay, who passed away March 26, 1980. Gone are the days we used to share, But in our hearts you are always there. The gates of memory will never close, To His eternal rest. 32-P-8

Baby's development is remarkable Registration system to be redesigned

from page 7

the neonate's ability to perceive. Think how much that helpless, fragile creature learns in his first year: he starts out with only a cry to communicate every need and desire and by his first birthday has learned to imitate sounds you make and put words together (in another six months, at 1½ years, he will have a vocabulary of 3 - 50 words); at first he can just focus on your face, by a year he asks where you have gone; at birth he can grab your finger though he doesn't know how to let go, by a year he can use his finger and thumb to pick up a tiny pellet and release it; at birth he can not hold up his own head and a year later he will walk with you holding his hand. All of this in one year!

In the belief that babies are capable of learning, the District Health Unit serving Northumberland County and Victoria and Haliburton Counties operates an Infant Stimulation Programme. Infant development consultants are available to visit the homes of children from birth to two years old to check their development using an assessment tool called the Bayley Scales of Infant Development. Five basic areas of development are considered: fine motor skills, gross motor skills, language, social skills and cognition (thinking and reasoning). If there is a delay in development, the infant development consultant may refer to the appropriate agency such as C.N.I.B. for intensive, long range care, or

the librarian for the county since there was not enough funds to hire a professional librarian and buy books also. At the same time, the Haliburton County District High School Board employed Noel half time to work in the high school library.

Noel remained full-time pastor of the church and in this position founded a branch of the Evangelical Fellowship of Canada, a young people's group, a ministerial fellowship amongst the various churches in Haliburton, and other Bible Clubs in the county. In 1965 Noel began to take University courses, by extension, and in 1969 received a Bachelor of Arts degree, majoring in English. The following two summers were spent in Kingston working towards his teaching diploma. While there, he organized Bible study sessions with Roman Catholic Charismatic groups.

In 1972, Noel moved to London with his wife, her mother, and their two children (Ellen and Darcy) so that he could begin studies at the University of Western Ontario to earn his Master of Library Science. During that year, he received a working scholarship from the university, filled in as a supply teacher for the London Board of Education, and pastored a church in Aylmer, Ontario. In

the fall of 1973, Noel began working at Saunders Secondary School as the assistant Librarian. Two years later he became department head at Sir Adam Beck Secondary School. At both of these schools and G. A. Wheable Secondary School where he was for the last three years, he quickly organized Christian Campus Life groups.

During these years in London, Noel started a Bible study group, served as a member of the Evangelical Fellowship of Canada, a Presbytery for the Ontario District of the Apostolic Church of Pentecost of Canada, and communications officer for the Ontario Secondary School Teachers Federation. In recent years, he was the host for the OSSTF cable-cast production of the show "Knock, knock".

In December 1978, Noel was asked to go to the church at Poplar Hill. Glad at the chance to resume teaching the Bible, Noel accepted and

in a very short time a deep love developed between the congregation and Noel and his family. In the summer of 1979, Noel went to the Bible College at Eston to organize an efficient library system there. Also in 1979, Noel began working toward his Master of Education. Noel continued to take courses during this past year despite the increasing difficulties created by his illness. He did, however, meet the requirements needed and will be awarded a Master of Education at the June Convocation of the University of Western Ontario. Noel continued his work at the school and at the church until the end of 1980.

Noel tried throughout his life to be a living example of his beliefs and principles, and to show his concern for others. Looking back at his history of accomplishments, Noel was an ordinary man who, through his faith, was able to do extraordinary things.

Park plan approved

A Forest Management Plan for Algonquin Provincial Park, has been approved, Ontario natural resources minister James Auld announced.

The two major amendments to the proposed plan are that the crossings on the Crow and Nipissing Rivers will not proceed, and the authority is to further pursue the feasibility of locating

product-sorting and distribution yards outside the park.

for funds had been generously supported by the community and the branch are anticipating wholehearted support again during the current campaign. The swimming program was carried out at West Guilford and Haliburton last summer and plans are underway to continue the program in 1981. The Fort Irwin Resident Ladies Association, Mrs. Joan Filman, and the Eagle Lake Womens Association made valuable contributions. Contributions have been made from the Disaster Fund when needed but expansion of the fund is necessary due to inflation. Mrs. Bennett, the nurse administrator, reported on a busy year with the hospital being expanded by a covered area for the ambulance and land adjacent to the hospital acquired for future expansion. Out patient treatment figures for 1979 were 7043 and for 1980 were 7448 indicating the continuing growth of use of services provided by the hospital.

The executive for the coming year were elected as follows: Ken Morley, President; Lila Austin, Vice-President and Lois Whittaker, Secretary-Treasurer.

Parliament

and the bank identifies it as an SBDB loan.

The interest rate for SBDB is half the prime interest rate, plus about two per cent for administrative costs. All recognized lending institutions (chartered banks, trust companies, credit unions, etc) may make an election under the SBDB program, and it can take the form of a "bond, debenture, bill, note, mortgage, hypothec or other similar obligation."

Haliburton Highlands Chamber of Commerce

she may design an individual programme for the infant and work, with the parents, in the home at regular intervals (weekly, monthly or every six months, for example). This service is free to families with children under two in Northumberland, Victoria and Haliburton Counties. Most counties in Ontario are now operating Infant Stimulation Programmes in order to maximize the potential of any young child who has a developmental delay. Infants in Haliburton and Victoria Counties who have been involved include: (1) babies born with syndromes (clusters of characteristics), such as Down's syndrome or cerebral palsy, that are associated with developmental delays and thus constitute an "established risk"; (2) families with infants at an "environmental risk" due to socioeconomic disadvantage, young mothers or poor maternal mental health; (3) babies at a "biological risk" because of factors surrounding their birth that increase the likelihood of developmental problems. Examples of "biological risks" are prematurity and low birth weight. The infant development consultant's involvement with this type of risk has tended to be short term. Call the Haliburton, Kawartha, Pine Ridge District Health Unit (457-1391) located on Mountain Street, Haliburton for more information on the Infant Stimulation Programme or to arrange a home visit.

This will be a weekly column dealing with the development of children from birth to five years. Issues relevant to this age group such as toilet training, teething, walking and talking, toys and learning to read will be discussed. Any questions you have about your child's development are welcome. Address your comments to: Infant Stimulation, Haliburton County Echo, Box 360, Haliburton.

Next week: The first of a series concerning the five areas of development: fine motor, gross motor, language, social skills and thinking skills (cognition).

A massive, 15-year redesign of Ontario's land registration system will be entirely self-financing after four years, Ontario consumer minister Frank Drea said.

"The registry system in this province is 180 years old and it's buckling under the weight of millions of pieces of paper and increased customer demand," the minister said.

"The important thing to

remember is that the whole project will be self-financing after four years. That's very rare for a project of this size."

The Land Registration Improvement Project (LRIP), part of the Ministry of Consumer and Commercial Relations' Property Rights Division, was given \$700,000 for its first year budget. Its annual budget will be increased by the inflation rate until the end of the fourth year when all costs will be covered by savings generated by changes to the system. The project is currently in its first year of operation.

During its planning stage, LRIP was known as the Province of Ontario Land Registration and Information System (POLARIS).

The land registration facelift involves microfilming all 35 million documents registered in the province's 65 land registry offices.

It also includes designing computer systems that will handle all new transactions and automatically update property maps of land that has been divided.

In addition, LRIP staff have prepared proposed changes to The Registry Act.

One proposed amendment would reduce to 25 years from 40 years the length of time a lawyer must search back a property's ownership to determine a good chain of title.

Senior League

Friday's activities ended on a happy note with Grace Coburn leading the sing song. Fred Ballard came along to play the organ. Singing together is always a nice relaxing way to end the week's activities at Hyland Crest.
